GENERAL STATEMENT.

MANY evidences of prosperity continue to mark the history of the INDIANA ASBURY UNIVERSITY. Its internal condition and work, so far as its relatively limited resources allow, are unusually good. It is right, however, that the friends of the Institution should know, and be more deeply impressed than they seem to be with the fact, that its growth has developed wants which loudly call for additional means. It is earnestly to be hoped that the work now being so urgently pressed upon it will secure from liberal-minded and large-hearted men and women such aid as will enable it to supply to the hundreds of noble youth assembled in its halls, in a larger degree than ever, that christian culture and instruction which best prepares for true success in the different professions and pursuits of life.

ROBERT STOCKWELL, JESSE MEHARRY, JOSEPH ORR, and others, have set a noble example for those who would leave for themselves and their friends monuments more enduring than brass or marble. Are there not many other friends of sanctified learning who will remember the University, and, by contributing to enlarge its means, aid the earnest efforts of those who are toiling to make the Institution more widely and largely useful?

The following are the principal contributions made during the past year:

TO THE ENDOWMENT FUND.

Five thousand dollars, in government bonds, by Gen. JOSEPH ORR, of LaPorte.
Five hundred dollars, a bequest, by the late ROBERT CONNELLY, of Cloverdale.
Five hundred dollars, a bequest, by the late MRS. PAXTON, of Indianapolis.

FROM HON. W. C. DEPAUW.

One hundred and fifty dollars, to aid in the education of needy and deserving students.

TO THE LIBRARY OF THE THEOLOGICAL AND PHILOSOPHICAL UNION.

A set of "McClintock and Strong's Cyclopedia of Biblical, Theological, and Ecclesiastical Literature," forty dollars.

A box of books from the library of the late REV. CRAWFORD, donated by Miss FLORA CRAWFORD, Franklin, Ind. Single volumes from various contributors, twenty dollars.

TO CABINET AND MUSEUM.

One hundred minerals from DR. J. F. LEWIS, of Canon City, Col.; fifty specimens from REV. J. B. FORD, of Cleveland, Tenn., and eighty minerals and archæological specimens from J. S. NUTT, Esq.

TO THE GREEK LIBRARY.

Cash from GEO. W. HOUSE, Esq., of Romney, Indiana,	\$500 00
Cash from D. G. HAMILTON, for casts, etc.;	35 00
Cash from Hon. NEWTON BOOTH,	100 00

Also, the seventh and eighth volumes Encyclopædia Britannica; coins from L. D. HAYS, Esq., of Attica, and Japanese students; hanging lamp for Greek Library, from ALBERT ALLEN, Esq.; current volume of the Attica Ledger; and glass for door plates, from N. T. DEPAUW.

TO THE SIMISON LATIN LIBRARY.

Endowment fund for the Latin Library by Mrs. Dr. JOHN SIMISON, of Romney, Indiana,	\$1,000 00
Cash for book-case, by GEO. W. HOUSE, Esq., Romney, Ind.,	100 00
Cash value of plate glass furnished for the same by Hon. W. C. DEPAUW,	60 00
Statuary by Dr. JOHN E. EARP,	15 00
Schliemann's Mycenae, by EPHRAIM MARSH, Esq., Class of '70,	12 00
Roman Missal, by S. F. LOCKRIDGE, Esq., Class of '68,	25 00
Roman Law, by JOHN S. GOODWIN, Class of '77,	10 00

TO LIBRARY OF MODERN LANGUAGES.

LaFontaine's Fables, by PAUL WILCOX,	\$10 00
Wright's History of France, by WM. M. AKIN, Jr., and N. T. DEPAUW,	40 00

FOR SEATING MEHARRY HALL.

Cash, by various parties,	\$724 00
-------------------------------------	----------

CARPET FOR ROSTRUM IN MEHARRY HALL.

Cash, by various parties,	\$80 00
-------------------------------------	---------

PULPIT STAND FOR MEHARRY HALL.

Cash, by J. B. SARGENT, Esq., Class of '69,	\$50 00
---	---------

FOR PROCURING A CHANDELIER FOR MEHARRY HALL.

From lecture funds,	\$43 85
-------------------------------	---------

THE RAILROADS.

Acknowledgments are due to the authorities of the "Indianapolis & St. Louis," and to those of the "Vandalia" Railroad, for permitting the students of "Asbury University" to visit their homes and return at half-fare rates, during the recess between the Fall and Winter, and the Winter and Spring terms, and, on occasion, during the session.

Also, to W. R. MCKEEN, ESQ., President of the Vandalia Line, for thirty-eight dollars commutation on freight from St. Louis to Greencastle.

TERMS OF ADMISSION.

APPLICANTS for admission to the Freshman Class should be at least fourteen years old, and must pass a satisfactory examination on all the studies of the Preparatory Course.

Candidates for advanced standing will be examined on the Preparatory studies, and also on those previously pursued by the classes which they purpose to enter, or in other studies equivalent to them.

Students applying for admission to the College Department must present to the Treasurer certificates of promotion by the Faculty, or of examination from the Principal of the Preparatory Department.

No one will be admitted later than the beginning of the Senior Year.

Entering the University will be considered a pledge to obey its rules and to conform to its regulations.

STUDENTS preparing for the Freshman Class elsewhere than in the Preparatory School in connection with the University will take notice that the requirements of the Revised Courses will hereafter be insisted on, which are as follows:

LATIN.—Latin Grammar, Cæsar's Commentaries, Virgil's *Æneid*, Latin Prose Composition.

GREEK.—First Book in Greek, Greek Grammar, Xenophon's *Anabasis*, Exercises in Greek Prose Composition.

MATHEMATICS.—Higher Arithmetic completed, and Algebra.

ENGLISH.—English Grammar, Test Spelling, Composition, Book-keeping and Drawing.

NATURAL SCIENCE.—Physiology, Natural History, Elements of Natural Philosophy. Physical Geography, and Geography of the Heavens.

COURSES OF STUDY.

FRESHMAN CLASS.

CLASSICAL.

FIRST TERM.

Latin { Cicero's Orations,
Latin Prose Composition. } 4 times
per week.

Mathematics—Plane Geometry, 4.

Belles-Lettres—Composition and Rhetoric, 4.

Greek, { Homer's Iliad,
Greek Prose Composition. } 4

SECOND TERM.

Latin, { Selections from Livy,
Latin Prose Composition. } 4

Mathematics—Solid Geometry, 4.

Belles-Lettres—Composition and Rhetoric, 4.

Greek, { Homer's Iliad,
Greek Prose Composition, } 4

THIRD TERM.

Latin { Selections from Livy,
Lectures on the Credibility
of Early Roman History. } 4

Mathematics—Plane Trigonometry, 4.

History—Ridpath's United States History, 4.

Greek—Homer's Iliad, 4.

PHILOSOPHICAL.

FIRST TERM.

Latin, { Cicero's Orations,
Latin Prose Composition. } 4 times
per week

Mathematics—Plane Geometry, 4.

Belles-Lettres—Composition and Rhetoric, 4.

Natural Science—Mineralogy, Determinative, 2.

Drawing Lessons, 2.

SECOND TERM.

Latin, { Selections from Livy,
Latin Prose Composition. } 4

Mathematics—Solid Geometry, 4.

Belles-Lettres—Composition and Rhetoric, 4.

Natural Science—Botany, 2; Lectures on Physical Science, 1.

THIRD TERM.

Latin, { Selections from Livy,
Lectures on the Credibility
of Early Roman History. } 4

Mathematics—Plane Trigonometry, 4.

History—Ridpath's United States History, 4.

Natural Science—Botany, 4.

SOPHOMORE CLASS.

CLASSICAL.

FIRST TERM.

Mathematics—Surveying and Navigation, 4 times per week.

Latin—Horace's Odes and Epodes, 2.

German—Woodbury's Practical Grammar, 4.

Greek—Herodotus, 2.

History—Thalheimer's Ancient History, 4.

SECOND TERM.

Mathematics—Analytical Geometry, 3.

History—Thalheimer's Mediæval History, 2.

Natural Science—Chemistry, Chemical Philosophy, 3.

German—Grammar and Reader, 4.

Latin—Horace's Satires and Epistles, 2.

Greek—Herodotus, 2.

THIRD TERM.

Mathematics—Differential Calculus, 4.

History—Thalheimer's Modern History, 4.

Latin—Plautus or Terence.

Greek—Lysias' Orations, 2.

German—Select Readings, 4.

PHILOSOPHICAL.

FIRST TERM.

Mathematics—Surveying and Navigation, 4 times per week.

German—Woodbury's Practical Grammar, 4.

Natural Science—Biology, Lectures, 2.

History—Thalheimer's Ancient History, 4.

Latin—Horace's Odes and Epodes, 2.

SECOND TERM.

Mathematics—Analytical Geometry, 3.

History—Thalheimer's Mediæval History, 2.

Natural Science—Chemistry, Chemical Philosophy, 3.

German—Grammar and Reader, 4.

Latin—Horace's Satires and Epistles, 2.

THIRD TERM.

Mathematics—Differential Calculus, 4.

History—Thalheimer's Modern History, 4.

Natural Science—Analytical Chemistry, 2.

German—Select Readings, 4.

Latin—Plautus or Terence.

JUNIOR CLASS.

CLASSICAL.

FIRST TERM.

Natural Science—Deschanel's or Silliman's Physics, 4 times per week.
Belles-Lettres—English Literature, 4.
Latin—Tacitus' Annals and Histories. 4.
Greek—Plato, 4.

SECOND TERM.

Natural Science—Deschanel's or Silliman's Physics, 4.
Belles-Lettres—Logic, 3.
Mathematics—Analytical Mechanics, 2.
Greek—Plato, 2.
Latin—Satires of Juvenal, 2.
French—Grammar and Reader, 5.

THIRD TERM.

Belles-Lettres—Rhetoric, 4.
Mathematics—Practical Mechanics, 3.
Latin—Seneca's Moral Essays, 3.
Greek—Alcestis, 4.
French—Grammar and Reader, 5.

PHILOSOPHICAL.

FIRST TERM.

Natural Science—Deschanel's or Silliman's Physics, 4 times per week.
Belles-Lettres—English Literature, 4.
Mathematics—Integral Calculus, 4.
German—Goethe's Prose, 4.

SECOND TERM.

Natural Science—Deschanel's or Silliman's Physics, 4.
Belles-Lettres—Logic, 3.
Mathematics { Analytical Mechanics } 2
 { Civil Engineering. } 2
French—Grammar and Reader, 5.

THIRD TERM.

Belles-Lettres—Rhetoric, 4.
Mathematics { Practical Mechanics, } 3
 { Nature of Mathematics } 4
French—Grammar and Reader,

SENIOR CLASS.

CLASSICAL.

FIRST TERM.

Haven's Mental Philosophy—4 times per week.

Belles-Lettres—Political Economy, 3.

Natural Science—Astronomy.

French—Entretiens sur la Grammaire, 5.

SECOND TERM.

Moral Philosophy—Gregory's Christian Ethics, 4.

History—Guizot's History of Civilization, 5.

Mathematics—Lectures, 2; half term.

French—Le Cid by Corneille, 5.

Geology—4; half term.

THIRD TERM.

Moral Philosophy—Butler's Analogy, 4.

Belles-Lettres—International Law, 4.

Modern Languages—Athalie by Racine, 4.

Geology—4.

PHILOSOPHICAL.

FIRST TERM.

Haven's Mental Philosophy—4 times per week.

Belles-Lettres—Political Economy, 3.

Natural Science—Astronomy, 4.

French—Entretiens sur la Grammaire, 5.

SECOND TERM.

Moral Philosophy—Gregory's Christian Ethics, 4.

History—Guizot's History of Civilization, 5.

Mathematics—Lectures, 2; half term.

French—Le Cid by Corneille, 5.

Geology—4; half term.

THIRD TERM.

Moral Philosophy—Butler's Analogy 4.

Belles-Lettres—International Law, 4.

Modern Languages—Athalie by Racine, 4.

Geology—4.

BIBLICAL COURSE.

FIRST YEAR.

EXEGETICAL THEOLOGY.—Hebrew Grammar, Hebrew Bible (selections from Genesis, Psalms, Isaiah, and the Prophets), Biblical Chaldee, Biblical Chronology, Archæology and Introduction.

NEW TESTAMENT LITERATURE.—Latin Hymns, Eusebius, Greek Testament—Exegesis.

HISTORICAL THEOLOGY.—Church History to the Reformation.

PRACTICAL THEOLOGY.—English Literature and Rhetoric; Extemporaneous Speaking.

SECOND YEAR.

SYSTEMATIC THEOLOGY.—Psychology, Moral Philosophy, Butler's Analogy, Raymond's Systematic Divinity.

PRACTICAL THEOLOGY.—Pastoral Theology (Kidder), Homiletics (Kidder).

ECLECTIC COURSE.

FIRST YEAR.

FIRST TERM.—Arithmetic, Grammar and Test Spelling, Penmanship, Geometric Drawing.

SECOND TERM.—Arithmetic, Grammar and Test Spelling, Physical Geography, Model and Object Drawing.

THIRD TERM.—Algebra, English Composition, Book-keeping, Natural History, Theory and Practice of Teaching.

SECOND YEAR.

FIRST TERM.—Algebra, Natural Philosophy, Rhetoric, Chemistry or Latin.

SECOND TERM.—Algebra, Natural Philosophy, Astronomy, Physiology or Botany, Rhetoric or Latin.

THIRD TERM.—Plane Geometry, Astronomy, U. S. History, Botany or Latin, Theory and Practice of Teaching.

THIRD YEAR.

FIRST TERM.—Geometry, Ancient History, Physics, English Literature.

SECOND TERM.—Geometry, Algebra, Chemistry, Mediæval History, Logic, Physics.

THIRD TERM.—Trigonometry, Modern History, Chemistry, Rhetoric or International Law, Theory and Practice of Teaching.

FOURTH YEAR.

FIRST TERM.—Psychology, Political Economy, Surveying, German or French.

SECOND TERM.—Ethics, History of Civilization, Nature of Mathematics, German or French.

THIRD TERM.—Butler's Analogy, Æsthetics, Geology, U. S. Constitution, German or French, Theory and Practice of Teaching.

Excellent opportunities for Military Drill are afforded.

Observations on the Courses of Study.

IN the selection and arrangement of the studies in the different Courses, the following objects have been kept steadily in view: First, and by far the most important of all, to secure a full and harmonious development of all the mental faculties. Second, to furnish the student with the first principles, and an intelligent outline at least, of those branches of knowledge with which every well-educated man should be to some extent acquainted. Third, to impart, so far as possible, general information, and especially on those subjects popularly called practical. That, however, has been deemed eminently practical which will secure the greatest discipline and the highest culture. The chief object has been, therefore, to bring into exercise, in due proportion, all the faculties, and thus secure the highest degree of mental power. In this way the student will become prepared to grapple successfully with the most important questions, to acquire knowledge readily, and to use it to good advantage.

THE CLASSICAL COURSE

Is, in all respects, substantially the same as that of the oldest and most reputable American colleges.

It embraces within its scope those branches of study which long experience has shown to be best adapted to secure a symmetrical mental development and liberal attainments in education. It is recommended in preference to any other.

The degree of Bachelor of Arts will be conferred upon those who satisfactorily complete this Course.

THE PHILOSOPHICAL COURSE

Has been framed on the basis of the former Scientific Course, and embraces a more extended study in Natural Science, Latin and Modern Languages. The amount of time necessary to complete it is now equivalent to that required in the Classical Course.

The degree of Bachelor of Philosophy will be conferred upon all who satisfactorily complete this Course.

THE ECLECTIC COURSE.

With a view to the interests of those who, from want of time or means, are disinclined to undertake either of the regular college courses, the Faculty present the following Eclectic, or Four Years' Course, which, while it possesses many opportunities for mental training, also, in various other respects, furnishes attractive and superior advantages.

TO TEACHERS, at least to the more ambitious, it offers an opportunity to secure accurate and available knowledge of those subjects which, when used for illustration and reference, give to the school-room a great charm and success; subjects, the knowledge of which, in itself, is a strong recommendation to the attainment of higher fields of labor.

TO BUSINESS MEN and to those desiring to engage in business pursuits it especially recommends itself, as embracing within the shortest possible space consistent with its character, all of the distinctive features of so-called practical education.

TO YOUNG LADIES, who do not care to pursue an extended course in the Languages and Higher Mathematics, it will be found interesting and valuable.

A certificate, signed by the authorities of the University, will be given upon the completion of the Eclectic Course.

THE NORMAL COURSE

Is intended to qualify the student for the practical work of teaching. A class is organized at the beginning of the Second Term, and a Course of Preparatory Lectures given; and for attendance at these lectures the students receive marks of merit, the same as are given in other departments. In the more advanced Course, the students of the class are required, under the supervision of the Professor, to conduct the recitations alternately, and each lesson, as well as the method of the teacher conducting the same, is subjected to review and criticism. By these means it is thought that the best discipline of the Normal School may be attained. This department is under the charge of the Professor of Belles-Lettres and History.

THE BIBLICAL COURSE.

HAS been arranged for the benefit of young men preparing for the ministry. Commencing with the Sophomore Year, it runs parallel with the Classical and Philosophical Courses; and, by the system of substitutions given below, affords the Theological student an extended Course in Hebrew, Patristic and New Testament Greek, Biblical Chronology, Archæology, Church History, etc.

SUBSTITUTIONS.

THEOLOGICAL students may substitute the Greek Testament for Classical Greek in the Second and Third Terms of the Sophomore Year; Church History for Latin in the First Term of the Junior Year; Hebrew for Classical Greek or Mathematics in the First and Second Terms, and for Latin or Mathematics in the Third Term of the Junior Year; Pastoral Theology for Greek in the First Term of the Junior Year; in the Third Term of the Junior Year, Practical Theology for Greek; and in the Second and Third Terms of the Senior Year, Hebrew and Systematic Divinity for Modern Languages.

ELECTIVE STUDIES.

STUDENTS may elect between Mathematics and Greek in the Second Term, and between Mathematics and Latin in the Third Term of the Junior Year.

WEEKLY RECITATIONS.

IN addition to the daily recitations, students recite in Elocution, Oratory, English Composition, or Rhetoric.

During the First and Second Terms, on Friday of each week, the Senior Class, and during the Third Term the Junior Class, deliver original orations in public.

ANNUAL AND SESSIONAL EXERCISES.

CLOSE OF THE FIRST TERM.—Literary exercises of the Junior Class.

CLOSE OF THE SECOND TERM.—Literary exercises of the Sophomore Class.

CLOSE OF EACH TERM.—Public examination of Classes.

CLOSE OF THIRD TERM.—Anniversary exercises of the Literary Societies.
Graduating exercises of the Senior Class.

PROFESSORSHIPS.

THE studies in the preceding Courses are distributed among the following Professorships:

I. Mental and Moral Philosophy.

ALEXANDER MARTIN, D. D.

The text-books laid down in the Course are intended only as Guides. The effort is to stimulate to thought and inquiry. Topical recitations, discussions, and familiar lectures occupy the daily hour in the recitation room.

BOOKS OF REFERENCE.—Cousin's Psychology, Stewart's Active and Moral Powers, Hamilton's Lectures, Paley's Philosophy, Dymond's Essays, Lewes' Biographical History of Philosophy, McIntosh's History of Ethical Science, and Bain's Moral Science.

Course of Study and Text-Books for the Collegiate Year 1878-9.

SENIOR CLASS.

FIRST TERM,	Psychology,	<i>Haven.</i>
	Æsthetics—Lectures.	
SECOND TERM,	Moral Philosophy,	<i>Gregory.</i>
	Ethical History—Lectures.	
THIRD TERM,	Butler's Analogy.	

The duties of the Biblical Professorship are, for the present, under the care of the President, aided by other members of the Faculty. It has been so organized that young men looking to the ministry, who desire to avail themselves of its advantages, may do so by the system of substitutions allowed between the Biblical and Classical Courses.

By reference to this Course, as presented elsewhere, it will be observed as laying a good foundation in Theological attainments, and such as will enable the young minister to enter upon the duties of his work to good advantage.

The work of this Chair for the ensuing year has been distributed as follows:

DR. MARTIN,	Systematic Divinity,	<i>Raymond.</i>
DR. WILEY,	Pastoral Theology, Homiletics, New Testament and Patristic Greek.	
DR. ROGERS,	Church History and Latin Hymns.	
DR. EARP,	Hebrew, Old Testament Literature, Archæology, and Christian Evidences.	

II. Natural Science.

JOSEPH TINGLEY, PH. D.

THIS department embraces all of the branches of Physical and Natural Science usually taught in Colleges. The usual facilities for illustration, experiment, and study are provided by the well-assorted apparatus, cabinets, and libraries of the University.

Course of Study and Text-Books for the Collegiate Year 1878-9.

FRESHMEN YEAR.

FIRST TERM, . . .	Mineralogy,	<i>Dana or Brush.</i>
SECOND TERM, . . .	Botany,	<i>Wood or Sach.</i>
	Physical Science—Lectures.	
THIRD TERM, . . .	Botany,	<i>Wood.</i>

SOPHOMORE YEAR.

FIRST TERM. . . .	Biology—Lectures.	
	Zoology,	<i>Nicholson.</i>
SECOND TERM, . . .	Chemistry,	<i>Roscoe or Barker.</i>
	Chemical Philosophy.	
THIRD TERM, . . .	Analytical Chemistry—Laboratory Practice.	

JUNIOR YEAR.

FIRST TERM, . . .	Natural Philosophy, . . .	<i>Deschanel or Silliman.</i>
SECOND TERM, . . .	Natural Philosophy, . . .	<i>Deschanel or Silliman.</i>

SENIOR YEAR.

FIRST TERM, . . .	Astronomy,	<i>Norton or Loomis.</i>
SECOND TERM, . . .	Geology and Mineralogy.	
THIRD TERM, . . .	Geology.	

SPECIAL COURSES.

In addition to the routine of the recitation room, special courses of instruction are given, when desired, in Analytical Chemistry, Pharmaceutics, Assaying, Determinative Mineralogy, Construction and Use of Scientific Apparatus, Use of Instruments of Precision, Photography, and Microscopy.

CABINET COLLECTIONS.

About one thousand specimens have been added to the Cabinets of Minerals and Fossils during the past two years by members of the Sophomore, Junior, and Senior Class, and others. (See "Cabinets," page 48.)

III. The Greek Language and Literature.

PHILANDER WILEY, D. D.

THE design in this department is to give thorough instruction in the fundamental principles and structure of the Language, and to render familiar the Literature of the different periods.

Constant attention is required to Accent, Grammar, Syntax, Greek-English, and English-Greek translations.

The following books of reference are especially recommended:

Kuhner, Hadley, Curtius, and Crosby's Grammars, Liddell and Scott's Greek-English Lexicon, Dwight's Mythology, Smith's Ancient Geography with Long's Atlas, Curtius, Grote's Histories, Smith's Dictionary of Antiquities, and Yonge's English-Greek Lexicon.

Course of Study and Text Books for the Collegiate Year 1878-9.

FRESHMAN YEAR.

FIRST TERM, . . .	Homer's Iliad,	<i>Weale.</i>
	Exercises in Greek Syntax, . . .	<i>Boise.</i>
SECOND TERM, . . .	Homer's Iliad,	<i>Weale.</i>
	Exercises in Greek Syntax, . . .	<i>Boise.</i>
	Greek Moods and Tenses, . . .	<i>Goodwin.</i>
THIRD TERM, . . .	Homer's Iliad,	<i>Weale.</i>

SOPHOMORE YEAR.

FIRST TERM, . . .	Herodotus—Selections,	<i>Mather.</i>
SECOND TERM, . . .	Herodotus—Selections,	<i>Mather.</i>
THIRD TERM, . . .	Lysias' Oration—Selections, . . .	<i>Mather.</i>

JUNIOR YEAR.

FIRST TERM, . . .	Lysias—Select Oration.
SECOND TERM, . . .	Plato.
THIRD TERM, . . .	Alcestis.

COURSE OF INSTRUCTION IN SANSKRIT.

FIRST LESSONS, . . .	Ballentyne.
GRAMMAR,	Monier Williams.
TEXT,	Nalopakhyanam.

During the whole Course lectures are given on the Language and Literature of Greece.

During the Junior Year lectures on Patristic Greek and Idioms of the New Testament.

During the Senior Year lectures on the Sanskrit Language and Literature.

IV. The Latin Language and Literature.

LEWIS L. ROGERS, PH. D.

THE Course of Reading embraces a select series of the Latin Classics, equal in amount and variety to that required by the best institutions.

The chief object had in view is, by faithful and elegant translations, and constant attention to the laws of correct expression, to secure to the student the valuable intellectual discipline of the Classics, and to perfect him in his knowledge of the powers and capacities of his vernacular.

A Course of Lectures is given to the College Classes on Roman Antiquities, History, Literature, Law, and Philosophy.

The following books of reference, or their equivalents, are deemed indispensable:

Harkness' and Zumpt's Latin Grammars, Andrews' Latin Lexicon, Doederlein's Latin Synonyms, Long's Classical Atlas, Anthon's Classical Dictionary, Mommsen's History of Rome, Cox's Aryan Mythology.

Course of Study and Text-Books for the Collegiate Year 1878-9.

FRESHMAN YEAR.

Cicero's Orations, Latin Prose Composition, Livy's Histories, Lectures on Rome, on Oratory and the Mythical Period of Roman History.

SOPHOMORE YEAR.

Horace—Odes, Epodes, Satires, and Epistles; Selections from the Comedies of Plautus or Terence.

JUNIOR YEAR.

Tacitus—Annals and Histories, Satires of Juvenal; Seneca's Moral Essays or Cicero on Duty.

Opportunity for instruction in the Spanish and Italian Languages, as optional studies, will be afforded by the Professor of Latin. For those who desire to become proficient in the same, the following course has been arranged:

SPANISH.—Ahn's Spanish Grammar, Colmena Espanola, Florian's Guillermo Tell y Andreas Hofer.

ITALIAN.—Cuore's or Fontana's Italian Grammar, Italian Reader.

La Rosa Dell' Alpi, La Fiera.

V. Belles-Lettres and History.

JOHN CLARK RIDPATH, A. M.

FROM this Chair are taught English Composition, History of the United States, Outlines of Ancient, Mediæval, and Modern History, the Anglo-Saxon and English Languages and Literatures, Logic, Rhetoric, Political Economy, History of Civilization, and International Law. The Recitations are conducted by Topics. The student is expected so to analyze and master the subject as to be able to recite without the formality of questions. In Rhetoric and Logic, practice as well as theory is required.

Especial attention is given throughout the Course to Criticisms in English. The student is at all times encouraged to employ English idioms and English methods of thought, in preference to those which are foreign. In literary discussion, as well as in the Lectures on the Philosophy of History, comparisons and parallels are drawn, as far as practicable, from the Literature, Politics and History of the English-speaking race in preference to the nations of antiquity. In the logical and rhetorical praxis of the Course, every effort is made to render the study of *practical utility* to the student in shaping his modes of thought and expression.

Course of Study and Text-Books for the Collegiate Year 1878-9.

FRESHMAN YEAR.

FIRST TERM,	English Composition,	<i>Quackenbos.</i>
SECOND TERM,	English Composition,	<i>Quackenbos.</i>
THIRD TERM,	History of the United States, . .	<i>Ridpath.</i>

SOPHOMORE YEAR.

FIRST TERM,	Ancient History,	<i>Thalheimer.</i>
SECOND TERM,	Mediæval History,	<i>Thalheimer.</i>
	English Orations.	
THIRD TERM,	Modern History,	<i>Thalheimer.</i>

JUNIOR YEAR.

FIRST TERM,	English Literature,	<i>Smith's Shaw.</i>
	English Orations.	
SECOND TERM,	Logic,	<i>Coppee.</i>
THIRD TERM,	Rhetoric,	<i>Coppee.</i>

SENIOR YEAR

FIRST TERM,	Political Economy,	<i>Wayland.</i>
SECOND TERM,	History of Civilization,	<i>Guizot.</i>
THIRD TERM,	International Law,	<i>Woolsey.</i>

VI. Modern Languages and Hebrew.

JOHN E. EARP, PH. D.

IN this the German Language especially receives a large share of attention, and is not only theoretically taught, but also spoken with the pupils. The students receive, also, lectures on both German and French Literature, and the history of the two languages. Extra classes in German and French are formed, during the Junior and Senior Years, for the the benefit of those who wish to pursue these studies beyond the required Course. The Hebrew Grammar and Bible will be thoroughly studied one year. A class will be formed in Swedish or Sanskrit, whenever a demand is made by students sufficiently advanced.

The work done by the classes in French, German and Hebrew, during the year 1877-8 is as follows :

SOPHOMORE CLASS.—Forty lessons in Woodbury's Complete German Course ; sixty pages in Ahn-Henn's First German Reader ; seventy-three pages in Ahn-Henn's Second German Reader.

JUNIOR CLASS.—Forty lessons in Langueillier and Monsanto's French Course ; forty-five exercises in Ahn-Henn's First French Reader ; thirty-six of La Fontaine's Fables as edited by Sauveur ; Schiller's Piccolomini. The class in Hebrew pursued a course in Green's Elementary Hebrew Grammar and read the first two chapters in Genesis.

SENIOR CLASS.—Two hundred and thirty-two pages of Guizot's Moral Essays.

VII. Mathematics.

PATTERSON M'NUTT, A. M.

THE methods of instruction in this department are varied as much as the nature of an exact science will allow, in order to fully develop the diversified capabilities of the students. The ordinary routine of recitation is relieved by frequent reviews, lectures, and discussions. Effort is made to acquaint the student with principles rather than with rules—to cultivate his reason rather than his memory. The Second Term of the Senior Year is devoted to lectures and discussions upon such branches of Mathematics as the wants of each class may determine.

Course of Study and Text-Books for the Collegiate Year 1878-9.

FRESHMAN YEAR.

- FIRST TERM, . . . Plane Geometry.
 SECOND TERM, . . . Solid Geometry.
 THIRD TERM, . . . Plane and Spherical Trigonometry.

SOPHOMORE YEAR.

- FIRST TERM, . . . Surveying and Navigation.
 SECOND TERM, . . . Analytical Geometry.
 THIRD TERM, . . . Differential Calculus.

JUNIOR YEAR.

- FIRST TERM, . . . Integral Calculus.
 SECOND TERM, . . . Analytical Mechanics and Civil Engineering.
 THIRD TERM, . . . Practical Mechanics and Nature of Mathematics.

SENIOR YEAR.

- SECOND TERM, . . . Lectures and Discussions. *Davies.*

Loomis' Texts are used throughout the entire Course.

A more extended course of instruction will be afforded those desiring to make Mathematics a specialty. Such classes will be heard in extra-collegiate hours.

BOOKS OF REFERENCE.—Davies' and Peck's Dictionary of Mathematics, Davies' Logic of Mathematics, Bartlett's Mechanics, Buckingham's Calculus, Newton's Principia.

VIII. Military Science and Tactics.

CAPT. D. D. WHEELER, U. S. A.

THE organization of this department has approved itself, especially as a valuable gymnastic, to the students and friends of the University. The following are the rules and regulations that have been adopted in reference to the same.

REQUIREMENTS.

Military drill, under such provisions as the authorities may make, is required during the Freshman and Sophomore years. Excuses from such exercises may be granted by the Faculty and Commandant for sufficient reasons. Drill shall remain optional with the Junior and Senior Classes, and also with members of the Preparatory Department.

RULES AND REGULATIONS.

1. The name of the organization shall be THE ASBURY CADET CORPS.
2. It shall in military matters be under the instruction and discipline of Captain D. D. WHEELER, U. S. A., as Commandant, and such other commissioned and non-commissioned officers as may be nominated by him and approved by the Faculty.
3. The system of tactics shall be that of the United States Army as taught at West Point.
4. The hours of drill and instruction, and for review and dress-parade, shall be at such times as the Commandant may order, and as will not interfere with other College duties.
5. The uniform shall consist of a blouse and pants of West Point gray cloth, and the United States regulation cap, with gold eagle for front-piece, encircled by the letters I. A. U.
6. Any student of the University who shall apply under the optional arrangement may be admitted to the Cadet Corps by pledging himself to a prompt attendance on all its exercises, and a faithful discharge of all his duties as such cadet; and having joined, he shall be under obligations to continue until the end of the College year, unless for special reasons excused by the Faculty and Commandant.
7. The Commandant shall keep a regular roll, on which attendance, demeanor, and proficiency shall be marked according to merit or demerit, and be entered on the records of the University, on the Quarterly Cards, and made the basis of military promotion and honor.
8. Cadets during the hours assigned for drill, instruction, or parade shall promptly and fully obey the orders of their officers, and officers and privates shall, as above, deport themselves toward each other as gentlemen and with military precision and respect.

LECTURES.

1877-78.

PRESIDENT MARTIN.

1877. Sept. 30, . . . Labor, its dignity and conditions.
 " Nov. 25, . . . Religion in early life.
 1878. Jan. 6, . . . A plea for Bible study.
 " April 28, . . . Human Depravity.
 " June 16, . . . Baccalaureate Sermon.

DR. TINGLEY.

1877. Sept. 16, . . . Man and Nature.
 1878. April 7, . . . The Expediency of Morality.

REV. ARTHUR EDWARDS, D. D.

1878. June 16, . . . Alumnus John's Dilemma.

MISCELLANEOUS.

DAILY AND WEEKLY ROUTINE.

THE exercises of each day will begin with religious services in the College Chapel, commencing at a quarter before eight in the morning. Recitations commence at eight A.M., one hour being devoted to each study. Every student is required to recite not less than three nor more than four lessons daily, excepting Saturday and Sunday.

RELIGIOUS SERVICES are held in the College Chapel on Sunday afternoon, consisting of a series of Lectures by the members of the Faculty, designed especially for the moral and religious education of the student. All are required to attend.

On Sunday morning the students are required to attend public worship at such churches as they or their parents may select, and it is expected that each student will be uniform in his attendance at the Church of his choice.

Prayer and class meetings are regularly held for those who wish to attend.

GOVERNMENT.

THE Government of the Institution is vested in the Faculty, and is such as arises out of the peculiar nature and relations of a University. It constantly assumes the moral sense of the student, and relies upon his sense of right, and his disposition to do right, for its efficiency; yet, if in any case these fail, it has the means at hand to correct the evil.

Whenever a student has entered College, he is subject to all its laws till his connection is formally closed, either by graduation or otherwise; and no student will be allowed to absent himself from College, either at the beginning of a Term, or at any other time, except by express permission of the Faculty, and, in the case of a minor, by written permission of his parent or guardian, obtained before the absence occurs.

REQUIREMENTS AND PROHIBITIONS.—Punctual and regular attendance at recitation, at public College exercises, at prayers and at Church, and observance of study hours are required of every student. Ungentlemanly treatment of fellow-students or citizens; disrespect toward the Faculty; irreverence at Church; desecration of the Sabbath; smoking in the College buildings; absence from room at night on any account, except to attend the sick, later than ten o'clock; loud conversation, loud laughing, wrestling, jumping, or other unnecessary noise in the College building or campus; leaving town without the knowledge and consent of the President; contracting debts without the knowledge and consent of parents or guardians; disorderly deportment at boarding-houses or elsewhere; permitting disorder in a room by any person whatever; writing upon, or otherwise defacing

the College building or furniture ; using obscene or profane language ; wearing fire-arms or other weapons ; visiting circuses or theatres ; card-playing and gambling of every kind ; visiting drinking, billiard, or gambling saloons ; drinking intoxicating liquors, or even keeping them in room or elsewhere ; and all other breaches of good morals or good order, are strictly and totally prohibited.

No student habitually violating any of the rules of the Institution, or who will persist in any criminal practices and indulgencies, will be allowed to remain at the Institution.

MERIT ROLL.

ALL absences from recitations, prayers, lectures, and church ; the student's deportment, and his average standing in each department of study, are placed in a record prepared for that purpose, and at the end of each Term—and at other times, if desired—an abstract of this record is sent to the parents or guardians of such as are minors. The standard of perfection, whether in scholarship, punctuality, or deportment, is one hundred.

EXAMINATIONS.

AT the close of each Term, all the classes are examined upon the studies pursued during that Term. The examinations are public.

The Annual Examinations will be upon the studies of the entire year, and the closing Examination of the Senior Class upon the entire course.

The final examination of the Seniors is held four weeks before Commencement, from which time they are subject only to such duties as are required for their preparation for Graduation.

Candidates for Class Standing, other than those who have regularly pursued their studies at the Institution, are required to pass special Examinations, either at the beginning or ending of a Term, no one being eligible to such Examination who has not paid the Contingent Fee for that Term.

EXERCISES OF COMMENCEMENT DAY.

As the largely increased size of the Graduating Classes forbids the pronouncing of orations by all the members of the Senior Class on Commencement Day, the Faculty have adopted the following plan:

1. The number of undergraduate orations shall not exceed fifteen, including the Valedictory and Salutatory.

2. On the last day of the final examination of the Senior Class, six members shall be appointed by lot for the delivery of Orations, the entire Class drawing, with the exception of the Valedictorian and the Salutatorian, who shall have been previously assigned their respective honors.

3. After the completion of the General Record, the seven members yet remaining unappointed, who have the highest average standing, shall be added to the number of the orators.

4. The afternoon exercises of the day shall be limited to the delivery of the Valedictory, Master's Oration, and the Conferring of Degrees.

5. The Salutator may elect to speak in Latin, Greek, or English.

DEGREES IN COURSE.

HENCEFORTH the Second Degrees shall be conferred only on those Alumni

who make application, accompanied with the Diploma Fee and a statement of the applicant's three years' Alumnal work ; said application to be sent to the President at least one week before Commencement.

C. G. CLOUD PRIZES.

FOR three years Mr. C. G. Cloud, of the Class of '70, has very generously given seventy-five dollars to be awarded for excellence in Declamation. This sum is distributed into three prizes, as follows : First Prize, \$35 ; Second Prize, \$25 ; Third Prize, \$15.

These were contended for at the Commencement of 1876-7 by four representatives from the Freshman, Sophomore, and Junior Classes, respectively, and by the decision of the Committee were awarded as follows :

First Prize, to	E. N. CAMPBELL.
Second Prize, to	PHILA LONG.
Third Prize, to	FRANK L. HALL.

The same liberal friend gives twenty five dollars to the Professor of Latin to be used by him for a prize fund. Competition for this prize is limited to the Freshman Class, and was awarded to that contestant presenting the best translation into Latin of "The Death of Socrates," a prose extract embracing about three pages. The prize was divided by the Committee, and awarded as follows:

Fifteen dollars to GEO. O. CURME, and ten dollars to LAURA G. KELLY.

These generous offers are renewed by Mr. Cloud, to be contended for at the Commencement of 1877-8.

DARNALL PRIZE IN ORATORY.

THE enterprising firm of Darnall Brothers & Co. have again offered a prize of twenty-five dollars for the best English Oration. Competition is limited to the Sophomore and Junior Classes. The three points of excellence to be considered by the Committee are *thought, composition, and delivery*. The contest will be held in Meharry Hall, on Monday afternoon of Commencement week.

At the commencement of 1876-7 eight members of the Junior and Sophomore classes competed for the prize and the same was awarded to

AUGUSTUS L. MASON, Indianapolis.

COMMENCEMENT.

THE last week of the Third Term is appropriated to the closing exercises of the year, including the Annual Examinations, the Literary Exercises of the Societies, the Reunion and Literary Exercises of the Society of the Alumni, the Baccalaureate Sermon, Annual Lecture, and the Graduating Exercises of the Senior Class.

LOCATION.

THE INDIANA ASBURY UNIVERSITY is located at Greencastle, forty miles west of Indianapolis, at the intersection of the Vandalia, and the Indianapolis and St. Louis Railroads with the New Albany and Chicago Railroad.

The country about Greencastle is rolling, well timbered, well watered, fertile and beautiful. The place is believed to be one of the most healthy west of the Allegheny Mountains. The people are intelligent, moral, and religious.

ENDOWMENT.

AN attempt to endow the Institution, in its earlier history, by the sale of perpetual Scholarships at \$500 each, and of limited Scholarships for sums varying with the number of years for which they were issued, having proved but partially successful, in 1844 a plan for permanent endowment, by the sale of perpetual Scholarships at \$100 each, was projected. Efficient agents were appointed to carry out the plan. Up to the close of the year 1858, there had been collected, in cash and notes, for permanent endowment, about \$75,000, of which over \$67,000 have been profitably invested. Centenary donations added about \$60,000 to this amount. In 1871, Robert Stockwell, Esq., of Lafayette, Indiana, gave \$25,000 for the endowment of a Professorship. The Trustees, in honor of the generous donor, have selected Professor Wiley's Chair, and called it the "Robert Stockwell Chair of the Greek Language and Literature." In 1872, Robert Stockwell added to his former munificent gift \$27,000; and again, a third gift of \$25,000 for the promotion of Biblical Education; making the sum total of his contributions to the Endowment Fund aggregate the handsome sum of \$77,000. Means which promise success are still employed for steadily increasing the endowment.

THE NEW BUILDING.

THE new College-building, the plan and specifications for which were furnished by Mr. J. A. Vrydagh, Architect, of Terre Haute, is a convenient, elegant, and tasteful structure, one hundred and twenty-six feet in length by ninety-four in width four stories high, finished with Mansard roof, and ornamented by three handsome towers, showing variety and harmony in design and appearance.

The first story, or basement, contains seven rooms, twelve feet high, besides halls and furnace rooms.

The second story, sixteen feet in height, is occupied by the halls of the three literary societies, and three recitation rooms, with halls and reception-room.

The third floor is occupied mainly by the chapel, fifty-four feet wide by ninety feet long, and forty-two feet high, with gallery extending around the room. When finished, the Chapel will accommodate sixteen hundred persons, and will be one of the most elegant audience rooms in the West.

The fourth story comprises a suite of rooms that are eligible for library, cabinet, and recitation purposes, as the wants of the University may demand.

When completed, the actual cost of the building will be about \$110,000. Thus far about \$95,000 have been expended.

LIBRARIES.

THE Libraries of the University, accessible to students, number, in the aggregate, about ten thousand volumes.

THE WHITCOMB LIBRARY, the noble bequest of the late Governor Whitcomb, is an exceedingly valuable collection of books in every department of literature, having been selected by the lamented Governor, in his later years, with the greatest care and discrimination. It numbers four thousand five hundred volumes, and is carefully arranged and preserved in a room devoted to this Library exclusively.

THE COLLEGE CIRCULATING LIBRARY contains over three thousand well selected volumes, mostly purchased with funds donated for that purpose.

THE LIBRARIES OF THE LITERARY SOCIETIES consist of selections made from time to time by the Society authorities, and purchased with funds derived partly from donations and partly from sessional revenues, it being the aim to devote annually a portion of the revenue to the continual improvement of the Libraries.

APPARATUS AND CABINET.

THE PHILOSOPHICAL AND CHEMICAL APPARATUS, though not of the most expensive kind, is sufficient for the illustration of the more important principles of Physical Science. It includes the usual requisites of the Chemical Laboratory; two Telescopes, by Henry Fitz; a Microscope, by Zentmayer, with Spectroscopic and Polarizing attachments; cylinder and plate Electrical Machines, inductive coils, air pump, meteorological instruments, and all of the common forms of physical apparatus.

The cabinets of the University comprise the DOWLING COLLECTION of about 1,000 specimens of minerals and fossils; the OWEN COLLECTION of 150 miscellaneous specimens; the UNIVERSITY COLLECTION of stone implements and Indian relics; the RITTER CABINET of Ward's casts; the UNIVERSITY COLLECTION of minerals and fossils, obtained by exchange or collected near Greencastle, 2,000 specimens; a miscellaneous collection of historical relics and curiosities, and the Scientific Club's collection, 500 specimens.

SCIENTIFIC CLUB.

AN organization has been in existence since 1875 under the name of the Indiana Scientific Association, whose objects are the study of the Natural History of the State, and mutual improvement in all branches of the Natural Sciences. The Society has already collected many hundred specimens of plants, fossils, and other objects of interest, and has accumulated over a hundred volumes of valuable books on scientific subjects. It subscribes also for the leading scientific journals of the world. Donations of books, money, minerals, fossils, archæological specimens, etc., are solicited, and exchanges returned when desired.

THE THEOLOGICAL AND PHILOSOPHICAL UNION.

THIS Union is composed of some of the professors, preachers in Greencastle, and students. Its object is mutual instruction and improvement in the subjects suggested by the title. Meetings are held semi-monthly, at which papers of special subjects are read and discussed and a general conversation had on some topic of immediate interest to the Church and World. Contributions to its Library are acknowledged under the head of "General Statement."

SOCIETIES.

THERE are three Literary Societies in connection with the University:

The *Platonean*, organized in 1838; library, one thousand volumes.

The *Philological*, organized in 1839; library, one thousand volumes.

The *Philomathean*, organized in 1870, consists exclusively of ladies; library about five hundred volumes.

These societies meet statedly for literary and oratorical improvement. The societies are under the general supervision of the Faculty, but in all the details of practical work their exercises are under their own control.

DRAWING AND PAINTING.

ARRANGEMENTS have been made whereby, on very liberal terms, students so desiring can obtain instruction in the elements of Drawing, and in Crayon, Water Color, and Oil Painting.

MRS. ELIZABETH ADELAIDE CLARKE, an artist of ability in the above branches, has had rooms assigned her in one of the College Buildings for this purpose. The number of her pupils has steadily increased, and with great satisfaction to all her patrons. It is to be hoped that means may be secured to enlarge the facilities in this and in other such directions.

EXPENSES.

No charges are made by the University, except—

Contingent Fee,	\$5.00.
Graduating Fee,	5.00.

FEES TO BE PAID IN ADVANCE.

BOARDING.

No arrangements for boarding students are made by the Institution. Boarding is readily obtained in private families at as moderate rates as circumstances will allow, and varying, according to the expensiveness of living, from \$3.50 to \$4.50 per week. In many cases, students board themselves. They rent a room suitably furnished, or sometimes furnish it themselves, and in this way reduce the expenses of boarding to \$2.50, and in some instances to \$1.50 per week. No student will be allowed to board at a public house without express permission of the Faculty.

N. B.—Several clubs have been organized, in which many have boarded well for about \$2.25 per week, and with but little trouble.

INCIDENTAL EXPENSES.

THE cost of clothing, traveling, etc., will vary considerably with the circumstances and habits of the student. A strict economy is best for all. As a general estimate, it may be stated that the whole expense of a young man in the University need not exceed from \$200 to \$300 per annum. All above the latter amount, it is believed, is very often worse than thrown away.

Parents having minor sons at the University are earnestly requested to select some friend in Greencastle to receive and disburse the money necessary for their support. If parents intrust it to their sons, they should not complain if it be squandered, or if consequences even more serious should ensue. The utmost vigilance on the part of the Faculty is insufficient to prevent the evils in question. These can be prevented only by putting the means of indulgence into the hands of a trusty friend, who will render regularly an account to the parent.

THE RAILROADS.

SINCE the acknowledgment under the head of *General Statement*, in the first part of this Catalogue, was made, the Railroads there referred to, viz: the Indianapolis and St. Louis, and the Terre Haute, Vandalia and St. Louis,

have agreed to pass our students at half-fare rates during the summer vacation, as well as during term time, and the Spring and Winter Vacations.

This generous action on the part of the managers of these roads deserves special and grateful recognition. At any time during the year, students of the "Indiana Asbury University" on presenting the students' permit agreed on in the case, at either of the ticket offices in Greencastle, and paying full fare to the place of destination, will be returned free.

PREPARATORY DEPARTMENT.

ALEXANDER MARTIN, D. D.,
President.

JOHN B. DEMOTTE, A. M.,
Principal, and Instructor in Mathematics.

THOMAS JEFFERSON BASSETT, A. M.,
Instructor in Ancient Languages.

PHILIP S. BAKER, A. M.,
Instructor in Natural Science and English.

A. G. ALCOTT, A. M.,
Teacher of Elocution.

CAPT. D. D. WHEELER, U. S. A.,
Professor of Military Science and Tactics.

MANY of our High-Schools and Academies are becoming more and more disinclined to fit their students for the Freshman Class of any of the higher institutions of learning where thorough and somewhat extended preparatory discipline in Ancient Language, and a fundamental knowledge of many of the special branches of Commercial and Natural Science are insisted upon. Hence a large proportion of their most ambitious and worthy students enter such higher institutions at great disadvantage. It is, primarily, on this account that the Preparatory Department of Indiana Asbury University has been given a separate and distinct organization, with full courses of study in the foundations of Mathematics, Language and the Natural Sciences, thus affording superior opportunity for preparation to students desiring to pursue any of the regular Courses of the University. A second object had in view is to give young men and young women not wishing to complete a full course, as thorough a discipline, as much practical information, and as clear an insight into commercial methods and regulations as a two years' Curriculum will permit. The provision for instruction in the practical branches, Natural Science, Phonography, Telegraphy, Book-keeping, Penmanship, and Drawing, is specially adapted to meet the wants of such individuals.

COURSES OF STUDY.

DURING the First Term, the Preparatory Studies are common to all the pupils. At the beginning of the Second Term, the Philosophical diverges from the Classical Course, the two, from that time forward, forming two distinct, co-ordinate courses of study, one of which each student is expected to select, and to which he is thereafter restricted, unless good reasons can be shown for a change, or unless he shall have given evidence of sufficient ability to justify his undertaking work in addition to his chosen course.

WORK REQUIRED.

FOR the convenience of those who are preparing for advanced standing, we give below the amount of work required in Latin and Greek during the Preparatory Years. The table refers to the Classical Course. The Philosophical is the same in Latin, but has no Greek. All other texts named in the Courses of Study are to be completed. In all class-work and examinations, the point insisted upon is quality rather than quantity.

FIRST YEAR.

Fall Term.

First Book in Latin, to Irregular Verb,
Smith.

Winter Term.

First Book in Latin completed, and
Cæsar begun.

First Book in Greek, to Part Second,
M'Clintock and Crooks.

Spring Term.

Cæsar's Commentaries, 20 chapters,
Harkness.

Latin Grammar, *Harkness.*
First Book in Greek completed, and
Anabasis begun.

SECOND YEAR.

Fall Term.

Cæsar's Commentaries—First book finished and 20 chapters of Second book, *Harkness.*

Latin Grammar, *Harkness.*

Xenophon's Anabasis, to 5th Chapter,
Crosby.

Greek Grammar, *Crosby.*

Winter Term.

Virgil's Æneid—500 verses.

Xenophon's Anabasis, to Chap. IX,
Crosby.

Greek Prose Composition—*Jones*—15
Lessons.

Spring Term.

Virgil's Æneid—First book finished, and 400 verses of Second book.

Latin Prose Composition, . . *Harkness.*

Xenophon's Anabasis—First book finished, and 3 chapters of Second book.

Greek Prose finished, *Jones.*

PRONUNCIATION.

The following scheme of vowel and consonant sounds, including only those which are different from the English, has been prepared, to serve as a guide in Latin pronunciation to students who may prepare for the Freshman Class elsewhere than in the Grammar School maintained by the University authorities:

VOWELS.—a, as in father; e, as in fete (French); i, as in machine; o, as in tone; v (vowel), as o in move. When *short*, the vowels have the same sound, but are uttered with a livelier and more rapid movement.

DIPHTHONGS.—au, as ow in power; eu, as eh—oo pronounced rapidly; ae and ai; as ay (adverb); oe, as oi in stoic, pronounced rapidly; ei, as eh—ee pronounced rapidly; ui, as oui (French).

CONSONANTS.—c and g always hard, as in cat, get; qu, like c hard, or k; s, as in hiss, never like z; t,* always as a pure dental; x, always as ks; v (consonant), like w, or as in English.

*e. g.—Ratio is to be pronounced ra-ti-o, and not rash-e-o.

REQUIREMENTS FOR ADMISSION.

CANDIDATES, to enter at the beginning of the First Preparatory Year, must be at least thirteen years old, and well grounded in the general principles of Modern Geography, English Grammar, and Arithmetic, in addition to Reading, Writing, and Orthography. It is recommended that a *thorough preparation* be made upon the *fundamental principles* of the above, rather than that their whole extent be hastily sketched, for the preliminary examination.

Candidates for advanced standing, in addition to the above, will be examined upon whatever of the printed Course of Study the class may have pursued up to the time at which they present themselves.

Persons desiring admission are required to present themselves for examination at the times indicated in General Calendar, and to be ready to enter upon their college duties promptly the day following. The Department claims the student's whole time during the recitation and study hours of every day, and from the beginning to the end of every Term, throughout his Preparatory Course, as one essential condition to his thorough training and regular promotion. Absence during a single hour devoted by the instructor to some fundamental explanation may be the occasion of a loss that is never repaired.

EXCUSES.

THE only valid excuse for absence, or lack of preparation for the class-room, is illness or other unavoidable prevention; and the necessity of a uniform and impartial system of discipline in the Department precludes the acceptance of any other as satisfactory.

By strictly adhering to this principle, students will save themselves and the Department much needless trouble, and, at the same time, contribute essentially to the cultivation of conscientiousness and the formation of regular and efficient business habits.

Each unexcused absence deducts *one* from the Term grade in Department.

EXAMINATIONS.

TEST recitations and written examinations are held at regular intervals during the college year, the manuscript of which is carefully criticised, graded, and returned to the student or parent.

PROMOTION.

ALL regular students of the Department, and any others giving satisfactory evidence of a thorough knowledge of all branches of study not marked "optional" in either of the following Courses, will receive CERTIFICATES OF ADMISSION to the Freshman Class of the same Course in the University proper.

MILITARY DRILL.

THE members of this Department have the privilege of becoming "Cadets" and engaging in all the physical development and manual drills of a thoroughly organized and well equipped battalion, under the command of a regular officer of the U. S. Army.

PHONOGRAPHY, TELEGRAPHY, AND DRAWING.

ANY student of the Department may receive instruction in Phonography, Telegraphy and Drawing without expense.

CABINET.

THROUGH the exertion of the Natural Science Department and the kindness of many friends, a good start has been made during the present year toward collecting and classifying the most important specimens necessary for illustration in the science studies of the Preparatory Department. Collections will be made during the present Summer, as heretofore, from the West, South, and East, and contributions from students and friends, directed to Prof. Baker, will be gratefully received, labeled, and preserved.

NECESSARY EXPENSES.

EXPENSE for board, room rent, etc., is given on page 49.

Instruction in all branches hereafter mentioned in the Curriculum of the Preparatory Department, is absolutely FREE.

A Contingent Fee of five dollars per term is required, according to a rule of the University.

Wherever students are deficient in any minor portion of the required work they have the privilege of making private arrangements for instruction in the same until the arrearage is made good.

READING ROOM ASSOCIATION.

AT the beginning of the year a reading room association was formed by the students of the Department, which has put within their reach an extended list of prominent publications. A convenient hall, 22x45, has been fitted up in the Preparatory Building and is accessible at all hours to the students of the Department. Where not otherwise stated the following named publications have been secured either by the courtesy of the publishers or by class purchase :

QUARTERLIES AND MONTHLIES.

American Annals, Deaf and Dumb, donated by W. H. DeMotte, LL. D.
 Appleton's Journal.
 Art Journal.
 Atlantic Monthly.
 Blackwood's Magazine (English).
 Benham's Review.
 Christian World.
 Cornhill Magazine (English).
 Demorest Magazine.
 Eclectic Journal.
 Galaxy.
 Golden Hours.
 Harper's Monthly, donated by J. M. Olcott.
 Indiana School Journal.

Littelle's Living Age, donated by Charley Urmston.
 Literary World.
 Lippincott's Magazine.
 Magazine of American History.
 Methodist Quarterly Review.
 North American Review.
 Nineteenth Century (English).
 National Repository.
 Official Gazette.
 Penman's Journal.
 Popular Science Monthly.
 Scribner's Monthly, donated by P. L. Wheeler.
 Sunday Magazine.
 St. Nicholas.
 Sunday School Journal.

DAILIES.

Indianapolis Journal.
 Indianapolis News.
 LaFayette Journal.

LaFayette Courier.
 San Francisco Chronicle, donated by Eva Wines.

GENERAL WEEKLIES.

Burlington Hawkeye, donated by P. L. Wheeler.	London Times.
Christian at Work.	New England Journal of Education.
Christian Advocate.	New York Herald.
Christian Weekly.	New York Semi-Weekly.
Cherokee Advocate.	New York Tribune, donated by Wm. Roberts.
Country Gentleman.	Polytechnic Review.

COURSES OF STUDY.

CLASSICAL.

FIRST YEAR.

FALL TERM, 1878.

First Book in Latin, 5 times per week.—*Smith*.
 Arithmetic, Reviewed, 5.—*Milne*.
 English Grammar, 5—*Ridpath* or *Swinton*.
 Penmanship, 5—*Payson*, *Dunton* and *Scribner*.
 Telegraphy (optional).
 Military Drill (optional).

WINTER TERM, 1879.

First Book in Greek, 5—*M'Clintock* and *Crooks*.
 First Book in Latin, 5—*Smith*.
 English Grammar, 5—*Ridpath* or *Swinton*.
 Arithmetic, Reviewed, 5—*Milne*.
 Telegraphy (optional).
 Military Drill (optional).

SPRING TERM, 1879. :

First Book in Greek, 5—*M'Clintock* and *Crooks*.
 { *Cæsar's Commentaries*, } 5—*Harkness*.
 { Latin Grammar, }
 Algebra, 5—*Olney*.
 Composition, 5—*Swinton*.
 Telegraphy (optional).
 Military Drill (optional).

SECOND YEAR.

FALL TERM, 1878.

{ *Xenophon's Anabasis*, } 5 times per
 { Greek Grammar, } week.
 { *Cæsar's Commentaries*, } 5—*Harkness*.
 { Latin Grammar, }
 Algebra, 5—*Olney*.
 Geometric Drawing—*Bartholomew*; or
 Phonography—*Graham*.
 Telegraphy (optional).
 Military Drill (optional).

WINTER TERM, 1879.

{ *Xenophon's Anabasis*, }
 { Greek Prose Composition, } 5.
 Virgil's *Æneid*, 5.
 Algebra, 5—*Olney*.
 Model and Object Drawing—*Bartholomew*; or Phonography (optional)—*Graham*.
 Physiology, 5—*Dalton*.
 Telegraphy (optional).
 Military Drill (optional).

SPRING TERM, 1879.

{ *Xenophon's Anabasis*, }
 { Greek Prose Composition—*Jones*. } 5.
 { Virgil's *Æneid*. }
 { Latin Prose Composition— } 5.
 { *Harkness*. }
 Plane Geometry—*Loomis*.
 Book-keeping, Double Entry, 4 (optional)—*Marsh*.
 Telegraphy (optional).
 Military Drill (optional).

PHILOSOPHICAL.

FIRST YEAR.

FALL TERM, 1878.

First Book in Latin, 5 times per week—*Smith*.
 Arithmetic, Reviewed, 5—*Milne*.
 English Grammar, 5—*Ridpath* or *Swinton*.
 Penmanship, 5—*Payson*, *Dunton* and *Scribner*.
 Telegraphy (optional).
 Military Drill (optional).

WINTER TERM, 1879.

Physical Geography, 5—*Cornell*.
 First Book in Latin, 5—*Smith*.
 Arithmetic, Reviewed, 5—*Milne*.
 English Grammar, 5—*Ridpath* and *Swinton*.
 Telegraphy (optional).
 Military Drill (optional).

SPRING TERM, 1879.

Natural History, 5—*Tenney*.
 { *Cæsar's Commentaries*, } 5—*Harkness*.
 { Latin Grammar, }
 Algebra, 5—*Olney*.
 Composition, 5—*Swinton*.
 Telegraphy (optional).
 Military Drill (optional).

SECOND YEAR.

FALL TERM, 1878.

Natural Philosophy, 5 times per week—*Steele*.
 { *Cæsar's Commentaries*, } 5—*Harkness*.
 { Latin Grammar, }
 Algebra, 5—*Olney*.
 Geometric Drawing—*Bartholomew*; or
 Phonography—*Graham*.
 Telegraphy (optional).
 Military Drill (optional).

WINTER TERM, 1879.

Natural Philosophy, 5, first half of term—*Steele*.
 { Astronomy—*Lockyer*. } 5, second half
 { Tracing—*Proctor*. } of term.
 { Virgil's *Æneid*. }
 { Latin Prose Composition— } 5.
 { *Harkness*. }
 Physiology, 5—*Dalton*.
 Algebra, 5—*Olney*.
 Model and Object Drawing—*Bartholomew*; or Phonography (optional)—*Graham*.
 Telegraphy (optional).
 Military Drill (optional).

SPRING TERM, 1879.

{ Astronomy—*Lockyer*. } 5.
 { Tracing—*Proctor*. }
 { Virgil's *Æneid*. }
 { Latin Prose Composition— } 5.
 { *Harkness*. }
 Plane Geometry—*Loomis*.
 Book-keeping, Double Entry, 4 (optional)—*Marsh*.
 Telegraphy (optional).
 Military Drill (optional).

ANNUAL REGISTER

OF THE

—❖INDIANA❖—

ASBURY UNIVERSITY

1879-80.

Greencastle, Ind:

PUBLISHED BY THE UNIVERSITY.

1880.

GENERAL STATEMENT.

The most important fact in connection with the INDIANA ASBURY UNIVERSITY, since our last Annual was published, is the destruction of the West College Building by fire and its prompt reconstruction and considerable enlargement. So little delay was there in the work that it was taken possession of during the Fall Term of the current year, and the whole of the Preparatory and Cadet Corps Departments find in it more commodious and in every respect better quarters than they have ever had.

It is due to the students of all departments of the University that honorable mention be made of the conduct of those within our Halls, during, and notwithstanding the disabilities under which we suffered from the time of the fire until the building was again occupied.

The excellent health, both of the Faculty and of the Students, during the year is deserving of grateful acknowledgment. Many who, from less favored regions, come to Greencastle have found its climate and the sanitary conditions of the place not only favorable to the maintenance of good health but to its recovery also when in some degree impaired.

A very fine moral and religious influence has prevailed during the greater part of the year. Christian young men and women have maintained their faith in, and work for Christ, and several very happy conversions have occurred.

The Library of the University has been, by Prof. Post, rearranged and made more available to the students and those entitled to its use than has been the case for many years.

In 1885 will occur the semi-centennial of the founding of the University. It is not too early to begin considering how an event so auspicious may best be celebrated. It is to be hoped that in view of it the Joint Board of Trustees and Visitors, the Alumni and friends, and the four Conferences will take such steps as may secure a wider and deeper interest in the subject of advanced instruction, and also greatly increase the endowment of the Institution. As the centenary of the organization of the Methodist Episcopal Church occurs in 1884 the interest attaching to that year might be made to culminate during the following year in a grand jubilee on behalf of the University.

In grounds and buildings Asbury now occupies a very enviable position. The raising of the many thousands of dollars required for the finishing of the East Building, the reconstruction and enlargement of the West Building, the furnishing of both buildings, and the steam-heating apparatus for them, and other considerable expenses have, in addition to

the work of instruction and management, involved a large amount of care and labor. Our greatest wants now are more of the spirit of the Great Teacher, and more of Christian liberality, to largely increase the work of instruction and culture.

Besides acknowledgments of former years, there was in last issue credit for an aggregate of nearly twenty thousand dollars raised for and contributed during that year to the different uses of the University. Of this sum fourteen thousand was for the permanent endowment. The following are the more considerable amounts not previously credited. Some of them should have had earlier acknowledgment, but the most part have been procured and paid during the present year:

Jesse Meharry, Bonds,	\$1,000 00
Jesse Meharry, Coupons,	300 00
Jesse Meharry, for Bishop Bowman door,	400 00
Hon. H. S. Lane, Crawfordsville,	1,000 00

TERMS OF ADMISSION.

APPLICANTS for admission to the Freshman Class should be at least fourteen years old, and must pass a satisfactory examination on all the studies of the Preparatory Course.

Candidates for advanced standing will be examined on the Preparatory studies, and also on those previously pursued by the classes which they purpose to enter, or in other studies equivalent to them.

Students applying for admission to the College Department must present to the Treasurer certificates of promotion by the Faculty, or of examination from the Principal of the Preparatory Department.

No one will be admitted later than the beginning of the Senior Year.

Entering the University will be considered a pledge to obey its rules and to conform to its regulations.

REQUISITIONS FOR ADMISSION.

THE requisitions for the Freshman class for 1880-81 will be :

CLASSICAL.

1. Penmanship.
2. English Grammar.
3. Arithmetic.
4. Six Terms of Latin.
5. Algebra.
6. Elements of Composition.
7. Physiology.
8. Five Terms of Greek.

PHILOSOPHICAL.

1. Penmanship.
2. English Grammar.
3. Arithmetic.
4. Six Terms of Latin.
5. Algebra.
6. Elements of Composition.
7. Physiology.
8. Physical Geography, Natural History, Natural Philosophy, Astronomy.

The requisitions for the Freshman class of 1881-82 will be :

Physical and Descriptive Geography, Arithmetic, Grammar, Composition and Elocution, Introductory Algebra, Elements of Astronomy, Algebra, Physics, three terms Latin, Physiology, Zoology, United States History, Plane Geometry, Elocution and Composition.

COURSES OF STUDY.

FRESHMAN CLASS.

CLASSICAL.

FIRST TERM.

REQUIRED.—Greek, Latin, Mathematics. ELECTIVE.—Belles Lettres, Science.

SECOND TERM.

REQUIRED.—Greek, Latin, Mathematics. ELECTIVE.—Belles-Lettres, Science.

THIRD TERM.

REQUIRED.—Greek, Latin, Mathematics. ELECTIVE.—Belles-Lettres Science.

PHILOSOPHICAL.

FIRST TERM.

REQUIRED.—Belles-Lettres, Latin, Mathematics, Science.

SECOND TERM.

REQUIRED.—Belles-Lettres, Latin, Mathematics, Science.

THIRD TERM.

REQUIRED.—Belles-Lettres, Latin, Mathematics, Science.

SOPHOMORE CLASS.

CLASSICAL.

FIRST TERM.

REQUIRED.—Greek, Latin. ELECTIVE.—German, History, Mathematics, Science.

SECOND TERM.

REQUIRED.—Greek, Latin. ELECTIVE.—German, History, Mathematics, Science.

THIRD TERM

REQUIRED.—Latin, Greek.

PHILOSOPHICAL.

FIRST TERM.

REQUIRED.—Philosophy—Moral.

ELECTIVE.—Belles-Lettres, French, Latin, Mathematics, Science.

SECOND TERM.

REQUIRED.—Philosophy.

ELECTIVE.—Belles-Lettres, French, Latin, Mathematics, Science.

THIRD TERM.

REQUIRED.—Philosophy. ELECTIVE.—Belles-Lettres, French, Science.

Remarks on the Courses of Study.

These courses of study embody advantages which will not only commend them to the public, but will also conduce very materially to the interests of students desirous of giving special attention to such branches as will more especially prepare them for the higher professions. They are also constructed so as to furnish the best discipline and most useful studies to those who may be compelled to break off before completing the entire course. In many colleges the courses of study are framed more especially for the good of those who may complete the whole of them. Without sacrificing this end, each year's work completes as nearly as practicable such a course as would be the best were it the last. For this reason the Faculty will discourage in the future, even more than in the past, all attempts to "double," believing that the work of each year will furnish ample scope for the industry and investigations of the most ambitious students.

Required Studies.

Four studies (three in the third term of the Senior year) of five recitations per week, constitute the quantum of work expected of each student. These are to consist of the required studies, together with as many electives of any year whatever, as will complete the number. Fewer or more studies will be permitted only by special action of the Faculty in each case. Fewer are undesirable, except in cases of physical inability, and more will usually result in superficiality.

Elective Studies.

Students are earnestly recommended to choose their elective studies from those departments which are most likely to lead to their future pursuits, and to choose all the studies of a few departments, rather than a few from all. Elections are expected to be made only of such branches as the student is properly prepared for. The Professors in the several departments will reserve the right to reject any who are incompetent to do the work with credit.

PROFESSORSHIPS AND COURSES OF STUDY.

The studies of the University are distributed among the following Departments and Professors:

I. Mental and Moral Philosophy.

ALEXANDER MARTIN, D.D., LL.D.

The text-books are intended mainly as guides. The aim is to stimulate thought and inquiry; to give present conclusions on living questions; to prepare the mind for opinion on open points, and for clear apprehension of settled facts. Topical recitations, discussions, and familiar lectures occupy the hour in the recitation room.

BOOKS OF REFERENCE.—Cousin's Psychology, Stewart's Active and Moral Powers, Morrell's History of Modern Philosophy, Calderwood's Mind and Brain, Porter on the Intellect, McCosh on the Feelings, Whedeledon on the Will, Wuttke's Ethics, Uberweg's Philosophy.

Course of Study and Text-Books for 1880-81.

JUNIOR CLASS.

THIRD TERM.—The Intellectual Powers—Haven.

History of Ancient Philosophy, Lectures, Junior Essays and Orations.

SENIOR CLASS.

FIRST TERM.—The Sensibilities and the Will—Haven.

History of Modern Philosophy, Lectures, Senior Essays and Orations.

SECOND TERM.—Moral Science—Gregory.

History of Ethical Philosophy, Lectures, Senior Essays and Orations.

THIRD TERM.—Analogy of Natural and Revealed Religion—Butler.

Aesthetics, Lectures, Commencement Exercises and Orations.

II. Belles-Lettres and History.

JOHN CLARK RIDPATH, A. M.

From this Chair are taught English Composition; History of the United States; Outlines of Ancient, Mediæval, and Modern History; the Anglo-Saxon and English Languages and Literatures; Logic; Rhetoric; Political Economy; History of Civilization, and International Law. The Recitations are conducted by Topics. The student is expected so to analyze and master the subject as to be able to recite without the formality of questions. In Rhetoric and Logic, practice as well as theory is required.

Especial attention is given throughout the Course to Criticisms in English. The student is at all times encouraged to employ English idioms and English methods of thought, in preference to those which are foreign. In literary discussion, as well as in the Lectures on the Philosophy of History, comparisons and parallels are drawn, as far as practicable, from the Literature, Politics, and History of the English-speaking race in preference to the nations of antiquity. In the logical and rhetorical praxis of the Course, every effort is made to render the study of *practical utility* to the student in shaping his modes of thought and expression.

Course of Study and Text-Books for the Collegiate Year 1880-81.

FRESHMAN YEAR.

FIRST TERM,	.	.	English Composition,	.	<i>Quackenbos.</i>
SECOND TERM,	.	.	English Composition,	.	<i>Quackenbos.</i>
THIRD TERM,	.	.	Rhetorical Praxis.		

SOPHOMORE YEAR.

FIRST TERM,	.	.	Ancient History,	.	<i>Thalheimer.</i>
SECOND TERM,	.	.	Mediæval History,	.	<i>Thalheimer.</i>
			English Orations.		
THIRD TERM,	.	.	Modern History,	.	<i>Thalheimer.</i>

JUNIOR YEAR.

FIRST TERM,	.	.	English Literature,	.	<i>Smith's Shaw.</i>
			English Orations.		
SECOND TERM,	.	.	Logic,	.	<i>Coppee.</i>
THIRD TERM,	.	.	Political Science.		

SENIOR YEAR.

FIRST TERM,	.	.	Political Economy,	.	<i>Wayland.</i>
SECOND TERM,	.	.	History of Civilization,	.	<i>Guizot.</i>
THIRD TERM,	.	.	International Law,	.	<i>Woolsey.</i>

III. The Greek Language and Literature.

PHILANDER WILEY, D. D.

The design in this department is to give thorough instruction in the fundamental principles and structure of the Language, and to render familiar the Literature of the different periods.

Constant attention is required to Accent, Grammar, Syntax, Greek-English, and English-Greek translations.

The following books of reference are especially recommended:

Kuehner, Hadley, Curtius, Goodwin, and Crosby's Grammars; Liddell and Scott's Greek-English Lexicon, Dwight's Mythology, Smith's Ancient Geography with Long's Atlas, Curtius, and Grote's Histories, Smith's Dictionary of Antiquities, and Yonge's English-Greek Lexicon.

Course of Study and Text-Books for the Collegiate Year 1880-81.

FRESHMAN YEAR.

FIRST TERM,	Homer's Iliad.	
	Exercises in Greek Syntax,	<i>Boise.</i>
	Geography of Hellas.	
	Homeric Dialects.	
SECOND TERM,	Homer's Iliad.	
	Exercises in Greek Syntax,	<i>Boise.</i>
	Greek Mythology.	
THIRD TERM,	Memorabilia.	
	Socrates and his Followers.	

SOPHOMORE YEAR.

FIRST TERM,	Horodotus—Selections,	<i>Mather.</i>
	Athenian History.	
SECOND TERM,	Horodotus and Thucydides.	
THIRD TERM,	Lysias' Orations	
	System of Jurisprudence.	

JUNIOR YEAR.

FIRST TERM,	Plato's Apology.	
	Greek Philosophy.	
SECOND TERM,	Lyric Poets,	<i>Tyler.</i>
THIRD TERM,	Demosthenes—Select Orations.	
	Athenian Oratory.	

SENIOR YEAR.

FIRST TERM,	Antigone.	
	Greek Tragedy and Tragedians.	
SECOND TERM,	Plato's Crito.	

COURSE OF INSTRUCTION IN SANSKRIT.

FIRST LESSONS,	<i>Ballantyne.</i>
GRAMMAR,	<i>Monier Williams.</i>
TEXT,	<i>Nalopakhyanam.</i>

During the whole course, lectures are given on the Language and Literature of Greece, Patristic Greek, Idioms of the New Testament, and Sanskrit Language and Literature.

IV. Modern Languages and Hebrew.

JOHN E. EARP, PH. D.

In this the German Language especially receives a large share of attention, and is not only theoretically taught, but also spoken with the pupils. The students receive, also, Lectures on both German and French Literature, and the history of the two languages. Extra Classes in German and French are formed, during the Junior and Senior years, for the benefit of those who wish to pursue these studies beyond the required Course. The Hebrew Grammar and Bible will be thoroughly studied one year. A class will be formed in Swedish or Sanskrit, whenever a demand is made by students sufficiently advanced.

The texts studied by the classes in French, German, and Hebrew, during the year 1879-80, is as follows:

SOPHOMORE CLASS.—Whitney's Grammar, Earp's Questions and Exercises, Heness' Leitfaden, Schiller's William Tell.

JUNIOR CLASS.—Goethe's Faust, Grimm's Maerchen, Green's Hebrew Grammar, The Bible.

SENIOR CLASS.—Beleze's Histoire de France, Le Cid, Essays on French Literature.

V. Mathematics.

PATTERSON M'NUTT, A. M.

The methods of instruction in this department are varied as much as the nature of an exact science will allow, in order to fully develop the diversified capabilities of the students. The ordinary routine of recitation is relieved by frequent reviews, lectures, and discussions. Effort is made to acquaint the student with principles rather than with rules—to cultivate his reason rather than his memory. The Second Term of the Senior Year is devoted to lectures and discussions upon such branches of Mathematics as the wants of each class may determine.

Course of Study and Text-Books for the Collegiate Year 1880-81.

FRESHMAN YEAR.

FIRST TERM,	Plane Geometry, VI Books,	<i>Loomis.</i>
SECOND TERM,	Solid Geometry, IV Books,	<i>Loomis.</i>
THIRD TERM,	Plane Trigonometry and Mensuration of Planes and Solids,	<i>Loomis.</i>

SOPHOMORE YEAR.

FIRST TERM,	Surveying, Navigation and Spherical Trigonometry,	<i>Loomis.</i>
SECOND TERM,	Analytical Geometry of two dimensions,	<i>Loomis.</i>
THIRD TERM,	Differential Calculus,	<i>Loomis.</i>

JUNIOR YEAR.

FIRST TERM,	Differential and Integral Calculus,	<i>Loomis.</i>
SECOND TERM,	Mechanics,	<i>Peck.</i>
THIRD TERM,	Mechanics,	<i>Peck.</i>

SENIOR YEAR.

FIRST TERM,	Astronomy,	<i>Loomis.</i>
SECOND TERM,	Lectures.	

Candidates for honors in mathematics will be required, in addition to the above, to do, in the Freshman Year, one term's work in advanced Algebra, and one term's work in Conic Sections and Spherical Trigonometry. In the Sophomore Year, one term's work in Analytical Geometry of three dimensions, and one term's work in Integral Calculus. In the Junior Year, one term's work in the application of Calculus to Mechanics and Physics, and one term's work in Descriptive Geometry. In the Senior Year, to present papers upon the nature of mathematics, its relation to other sciences, its relative importance, etc.

MATHEMATICAL MEDALS

Were awarded, by the Professor of Mathematics, to the four members of the graduating classes of 1876 and '79 inclusive, who had completed the entire course most satisfactorily ; Namely:

Wm. Bosson, Thomas M. Bosson, J. H. Johnson, and James L. Cross of '76; Jay H. Neff, Anna Downey, E. B. Rawls, and R. H. Crouch of '77; Albert T. Summers, O. R. Bellamy, Chas. S. Baker, and James W. Beck of '78; Frank L. Hall, W. I. Overstreet, E. E. Stroup, and A. L. Mason of '79.

These medals will be continued hereafter only to those who take the honor course.

The timely donation of \$200 to the Department by Richard Biddle, Esq., to be expended for Mathematical works, Cyclopedias and apparatus will furnish soon the students of mathematics a greater variety of books of reference than we now have. Any donations of money, mathematical works or apparatus, by the friends of the institution to this department, will be thankfully acknowledged.

VI. Biblical Department.

ALEXANDER MARTIN, D. D., LL. D., PROFESSOR IN CHARGE.

The duties of the Harmon professorship of Biblical literature are, for the present, under the care of President Martin, aided by other members of the Faculty. It must not be inferred that these important studies are undervalued or neglected. The department is so organized that young men who are thought to be called of God to the Christian ministry may avail themselves of its instructions to very great advantage. Over thirty are in the present class.

By reference to the substitutions, indicated on a subsequent page, and by co-ordinate studies required and available in other departments, it will be seen that there is here laid a good foundation in Theological study and training. A large number of noble men are now doing grand work for God and humanity who here received their special instruction.

For the ensuing year the work is distributed as follows:

PRESIDENT MARTIN.—Systematic Divinity—Raymond.

DR. WILEY.—Pastoral Theology, Homiletics, New Testament, and Patristic Greek.

PROFESSOR POST.—Blackburn's Church history and Latin hymns.

DR. EARP.—Hebrew, Old Testament Literature, Archaeology, and Christian Evidences.

VII. The Latin Language and Literature.

EDWIN POST., M. A.

During the first years of the course regard will be had to the principles of Syntax, Etymology, and Prosody, in order that during subsequent study greater attention may be paid to the style, expression, subject-matter, and to such historical and philosophical questions as may be suggested by the authors read. Every examination will aim to call for something more from the student than the ordinary class work would naturally demand. It is thus hoped that by the time the student reaches the latter years of the course, he may be prepared and disposed to do some independent work.

The complete course of study in this department embraces a period of four academical years. Within the comparatively brief period that can, at best, be devoted to the study of Latin by the college student, a knowledge of the language is not to be acquired by a rapid, and necessarily, superficial reading of abstracts from a large number of authors. Accordingly the student is restricted in the required work to a few representative writers. It is thus hoped that he may acquire sufficient vocabulary and facility to enable him to read them with pleasure. Extemporaneous translation is constantly practiced by all the classes, and the papers set for every examination embrace one or more passages of Latin "to be read at sight." The Roman (or Phonetic) method of pronunciation is used.

Course of Study and Text-Books for the Collegiate Year 1880-'81.

FRESHMAN YEAR

Cicero—*Orations* and *De amicitia* (Allen and Greenough); review of Grammar; Ancient Geography (Tozer's); Latin Composition (Allen's or Jones's); Extemporaneous translation (Bennett's Easy Latin stories); written exercises in Idiomatic and Free translation; exegetical lectures on Syntax.

SOPHOMORE YEAR.

Horace—*Odes, Epodes, Satires and Epistles* (Lincoln's); Prosody and Scansion; Ancient Geography; Latin Composition; Mythology (Seemann's); Extemporaneous translation (Walford's Extracts) and writing of Latin; lectures on Antiquities.

JUNIOR YEAR.

The Historians: Livy (Lincoln's), for rapid, cursory reading; Tacitus's *Histories* (Tyler); History of Roman Literature (Bender's); Extemporaneous translation; Composition (fortnightly) by dictation and by turning into Latin translations from Classical authors.

SENIOR YEAR.

The Dramatists and Satirists.

Lectures on special subjects suggested by the work in hand, additional to those above mentioned, will be delivered as occasion may demand.

HONOR SCHEME.

In accordance with the regulations governing Departmental Honors (prescribed elsewhere in this Catalogue), honors are awarded for special work successfully accomplished. To entitle a candidate to Second-class Honors (open to Sophomores and Juniors) he must (1) comply with the above mentioned Regulations, and must (2) pass a special examination:

1. In Latin Prose Composition.
2. Ancient Geography.
3. Classical Mythology.
4. In translation at sight of easy Latin.
5. In such Latin authors as may be prescribed, answering questions grammatical, geographical and historical. For 1880-'81 a portion of Livy will be required.

The subjects for First-class Honors (open to Seniors) are yet to be announced. The following Books of Reference are *indispensable*:

Allen and Greenough's Latin Grammar (new edition); White's Latin-English and English-Latin Dictionary (abridged); Doederlein's or Ramshorn's Latin Synonymes; Long's or Schmitz's Classical Atlas; Anthon's or Smith's Classical Dictionary. Students of Livy and Tacitus will need Ihne's "Early Rome," and Capes' "Early Roman Empire."

In addition to the above-mentioned books, students are earnestly advised to provide themselves with the following works:

Andrew's New Latin Dictionary (new edition); Mommsen's "History of Rome;" Merivale's "History of the Romans under the Empire;" Cruttwell's Roman Literature; Madvig's Latin Grammar; Plutarch's "Lives;" and Forsyth's "Life of Cicero."

The Professor in charge of this department invites correspondence with any contemplating admission to advanced standing. Candidates for admission to classes above Freshman, are requested, upon applying for examination, to submit in writing an accurate statement of all the work in Latin previously done by them.

VIII. Natural Science.

JOHN M. MANSFIELD, PH. D.

COURSE OF STUDY.

FRESHMAN YEAR.

FIRST TERM,	.	.	Chemistry,	.	.	<i>Attfield.</i>
SECOND TERM,	.	.	Chemistry,	.	.	<i>Wood.</i>
THIRD TERM,	.	.	Botany.			<i>Gray.</i>

SOPHOMORE YEAR.

FIRST TERM,	.	.	Botany (One-half term).			
			Sanitary Science (One-half term).			
SECOND TERM,	.	.	Mineralogy,	.	.	<i>Dana.</i>
THIRD TERM,	.	.	Biology,	.	.	<i>Martin.</i>

JUNIOR YEAR.

FIRST TERM,	.	.	Physics,	.	.	<i>Atkinson's Ganot.</i>
SECOND TERM,	.	.	Physics.			

SENIOR YEAR.

FIRST TERM,	.	.	Astronomy (Two-fifths),		<i>Norton.</i>
SECOND TERM,	.	.	Geology (One half term),		<i>Dana's Manual.</i>
THIRD TERM,	.	.	Geology.		

BOOKS OF REFERENCE.—Qualitative Chemistry—Douglas and Prescott, Valentine, Church, Crookes; Quantitative Chemistry—Fresenius, Sutton; Organic Chemistry—Prescott, Allen's Commercial Analysis; Pharmacy—Attfield; Medical Chemistry—Thudicum, Vaughan; Toxicology—Tidy; Agricultural Analysis—Caldwell; Foods—Letheby, Smith; Roscoe and Barker's Elements; Watts' Dictionary of Chemistry; Journal of the American Chemical Society; Biology—Burdon-Saunderson, Foster, Wagner's Handwörterbuch der Physiologie, American Monthly Microscopical Journal, Sachs, Smithsonian and National publications; Physics—Pickering, Weinhold, Frick, Scientific American Supplement, Tait, Maxwell, Stewart, American Journal of Science.

General reading is recommended for those of scientific taste on the following subjects: Bacon's *Novum Organum*, Whewell's *History of the Inductive Sciences*, Jevon's *Principles of Science*, Gore's *Art of Scientific Discovery*.

The whole plan of work is designed to be in the spirit of the inductive method. Students learn to experiment for themselves, and make scientific excursions in our beautiful forests as early as possible. They do their work, hence know it, and will be able to use this great vantage ground during their whole course. Work in the laboratories alternates with recitations. Many rapidly acquire the elements of the natural sciences, then enter upon new discoveries. Nothing in this department at all equals original research in its powers to develop the faculties and give scientific character to the student. Each student does his own experimenting for himself in all the laboratories, hence the best in the class is not kept back by the worst. He can choose the kind of work and thought he most needs for his own development and profession.

Systematic notes of experiments and reading are required.

Students and friends of the University are earnestly invited to send specimens to the laboratories and museums for analysis, labeling and exhibition. Every mineral, plant, animal, or human product will be gladly received. Send small quantities by mail, large by freight, at the expense of the University.

IX.—Military Science and Tactics.

LIEUT. WILLIAM R. HAMILTON, U. S. A.

The organization of this department has approved itself, especially as a valuable gymnastic, to the students and friends of the University. The following are the rules and regulations that have been adopted in reference to the same:

REQUIREMENTS.

Military Drill, under such provisions as the authorities may make, is required during the Freshman and Sophomore years. Irregular students whose studies are principally with these classes are required to drill with them. Excuses from such exercises may be granted by the Faculty and Commandant for sufficient reasons. Drill shall remain optional with the Junior and Senior classes, and also with members of the Preparatory Department.

RULES AND REGULATIONS.

1. The name of the organization shall be THE ASBURY CADET CORPS.
2. It shall in military matters be under the instruction and discipline of Lieut. Wm. R. Hamilton, U. S. A., as Commandant, and such other commissioned and non-commissioned officers as may be nominated by him and approved by the Faculty.
3. The system of tactics shall be that of the United States Army as taught at West Point.
4. The hours of drill and instruction, and for review and dress-parade, shall be at such times as the Commandant may order, and as will not interfere with other College studies.
5. The uniform shall consist of a blouse and pants of West Point gray cloth, and the United States regulation cap, with gold eagle for front-piece, encircled by the letters I. A. U.
6. Any student of the University who shall apply under the optional arrangement may be admitted to the Cadet Corps by pledging himself to a prompt attendance on all its exercises, and a faithful discharge of all his duties as such cadet; and having joined, he shall be under obligations to continue until the end of the College year, unless for special reasons excused by the Faculty and Commandant.
7. The Commandant shall keep a regular roll, on which attendance, demeanor, and proficiency shall be marked according to merit or demerit, and be entered on the records of the University, on the Quarterly Cards, and made the basis of military promotion and honor.
8. Cadets during the hours assigned for drill, instruction, or parade shall promptly and fully obey the orders of their officers, and officers and privates shall, as above, deport themselves toward each other as gentlemen and with military precision and respect.

LECTURES.

The Professor has delivered during the year lectures upon topics connected with his department.

MISCELLANEOUS.

DAILY AND WEEKLY ROUTINE.

The exercises of each day will begin with religious services in the College Chapel, commencing at 20 minutes before eight in the morning. Recitations commence at eight A. M., one hour being devoted to each study. Every student is required to recite, unless specially excused, four lessons daily, excepting Saturday and Sunday.

RELIGIOUS SERVICES are held in the College Chapel on Sunday afternoon, consisting of a series of Lectures by the members of the Faculty, designed especially for the moral and religious education of the students. All are required to attend.

On Sunday morning the students are required to attend public worship at such churches as they or their parents may select, and it is expected that each student will be uniform in his attendance at the church of his choice.

Prayer and class meetings are regularly held for those who wish to attend.

GOVERNMENT.

The Government of the Institution is vested in the Faculty, and is such as arises out of the peculiar nature and relations of a University. It constantly assumes the moral sense of the student, and relies upon his sense of right, and his disposition to do right, for its efficiency; yet, if in any case these fail, it has the means at hand to correct the evil.

Whenever a student has entered College, he is subject to all its laws till his connection is formally closed, either by graduation or otherwise; and no student will be allowed to absent himself from College, either at the beginning of a Term, or at any other time, except by express permission of the Faculty, and, in the case of a minor, by written permission of his parent or guardian, obtained before the absence occurs.

• REQUIREMENTS AND PROHIBITIONS.—Punctual and regular attendance at recitation, at public College exercises, at prayers and at church, and observance of study hours are required of every student. Ungentlemanly treatment of fellow-students or citizens; disrespect towards the Faculty; irreverence at church; desecration of the Sabbath; smoking in the College buildings; absence from room at night on any account, except to attend the sick, later than ten o'clock; loud conversation, loud laughing, wrestling, jumping, or other unnecessary noise in the College building or campus; leaving town without the knowledge and consent of the President; contracting debts without the knowledge and consent of parents or guardians; disorderly deportment at boarding-house or elsewhere; permitting disorder in a room by any person whatever; writing upon, or otherwise defacing the College buildings or furniture; using obscene or profane language; wearing fire-

arms or other weapons; visiting circuses or theatres; card-playing and gambling of every kind; visiting drinking, billiard or gambling saloons; drinking intoxicating liquors, or even keeping them in room or elsewhere; and all other breaches of good morals or good order, are strictly and totally prohibited.

No student habitually violating any of the rules of the Institution, or who will persist in any criminal practices and indulgences, will be allowed to remain at the Institution.

MERIT ROLL.

All absences from recitations, prayers, lectures, and church, the student's deportment, and his average standing in each department of study, are placed in a record prepared for that purpose, and at the end of each Term—and at other times, if desired—an abstract of this record is sent to the parents or guardians of such as are minors. The standard of perfection, whether in scholarship, punctuality, or deportment, is one hundred.

DEGREES IN COURSE.

Henceforth the Second Degree will be conferred only on those Alumni who make application, accompanied with the Diploma Fee and a statement of the applicant's three years' Alumni work; said application to be sent to the President at least one week before Commencement.

C. G. CLOUD PRIZES.

For six years Mr. C. G. Cloud, of the Class of '70, has very generously given seventy-five dollars to be awarded for excellence in Declamation. This sum is distributed into three prizes, as follows: First Prize, \$35; Second Prize, \$25; Third Prize, \$15.

These were contended for at the Commencement of 1878-79 by four representatives from the Freshman, Sophomore and Junior Classes, respectively, and by the decision of the Committee were awarded as follows:

First Prize, to	SUSIE FARROW.
Second Prize, to	C. E. FINNEY.
Third Prize, to	KATE HAMMOND.

The same liberal friend gives twenty-five dollars to the Professor of Latin to be used by him for a prize fund. Competition for this prize is limited to the Freshman Class, and was awarded to that contestant presenting the best translation into Latin of "Tact and Talent," a prose extract, embracing about three pages. The prize was awarded Charles Peterson.

These generous offers are renewed by Mr. Cloud, to be contended for at the Commencement of 1879-80.

DARNALL-GRANT PRIZES IN ORATORY.

The enterprising firm of Darnall Brothers, of Greencastle, and Amandus N. Grant, A. B., of Kokomo, have established two prizes in oratory; a first prize of twenty-five dollars and a second prize of ten dollars, to be awarded for the first-best and second-best English Orations. Competition is limited to the Sophomore and Junior Classes. The three points of excellence to be considered by the Committee are *thought*, *composition*, and *delivery*.

At the Commencement of 1878-79 eight members of the Junior and Sophomore Classes competed for the prize, with the following result:

First Prize	WILLIAM T. NEFF, Greencastle.
Second Prize,	CHARLES F. COFFIN, Westfield.

COMMENCEMENT.

The last week of the Third Term is appropriated to the closing exercises of the year, including the Annual Examinations, the Literary exercises of the Societies, the Reunion and Literary Exercises of the Society of the Alumni, and Baccalaureate Sermon, Annual Lecture, and the Graduating Exercises of the Senior Class.

LOCATION.

THE INDIANA ASBURY UNIVERSITY is located at Greencastle, forty miles west of Indianapolis, at the intersection of the Vandalia, and the Indianapolis and St. Louis Railroads, with the New Albany and Chicago Railroad.

The country about Greencastle is rolling, well timbered, well watered, fertile and beautiful. The place is believed to be one of the most healthy west of the Allegheny Mountains. The people are intelligent, moral, and religious.

ENDOWMENT.

An attempt to endow the Institution, in its earlier history, by the sale of perpetual Scholarships at \$500 each, and of limited Scholarships for sums varying with the number of years for which they were issued, having proved but partially successful, in 1844 a plan for permanent endowment, by the sale of perpetual Scholarships at \$100 each, was projected. Efficient agents were appointed to carry out this plan. Up to the close of the year 1858, there had been collected, in cash and notes, for permanent endowment, about \$75,000, of which over \$67,000 has been profitably invested. Centenary donations added about \$60,000 to this amount. In 1871, Robert Stockwell, Esq., of Lafayette, Ind., gave \$25,000 for the endowment of a Professorship. The trustees, in honor of the generous donor, have selected Professor Wiley's Chair, and called it the "Robert Stockwell Chair of the Greek Language and Literature." In 1872, Robert Stockwell added to his former munificent gift \$27,000; and again, a third gift of \$25,000 for the promotion of Biblical Education; making the sum total of his contributions to the Endowment Fund aggregate the handsome sum of \$77,000. Means which promise success are still employed for steadily increasing the endowment.

THE COLLEGE BUILDINGS.

The East College building, the plan and specifications for which were furnished by Mr. J. A. Vrydagh, Architect, of Terre Haute, is a convenient, elegant and tasteful structure, one hundred and twenty six feet in length by ninety four in width, four stories high, finished with Mansard roof, and ornamented by three handsome towers, showing variety and harmony in design and appearance.

The first story, or basement, contains seven rooms, twelve feet high, besides halls and furnace rooms.

The second story, sixteen feet in height, is occupied by the halls of the three literary societies, and three recitation rooms, with halls and reception rooms.

The third floor is occupied mainly by the chapel, fifty-four feet wide by ninety feet long, and forty-two feet high, with gallery extending around the room. The chapel will accommodate fifteen hundred persons, and is one of the most elegant audience rooms in the West.

The West College building has been reconstructed and enlarged in substantial

style after plans by Mr. E. H. Ketchem, Architect, Indianapolis. It affords ample and conveniently arranged accommodations for various departments of work connected with the University.

LIBRARIES

The libraries of the University accessible to students are as follows, viz : The UNIVERSITY WHITCOMB LIBRARY; the libraries of the PLATONEAN, PHILOLOGICAL, and PHILOMATHEAN Literary Societies ; the library of the "Theological and Philosophical Union:" and the various Departmental Libraries.

I. THE WHITCOMB LIBRARY numbers nearly five thousand nine hundred bound volumes, and over fifteen hundred unbound volumes, pamphlets, etc. This library, embracing the bequest of the late Gov. Whitcomb, and the library hitherto known as the College Circulating Library, is an exceedingly valuable collection of books in every department of literature. Although the fire of February, 1879 destroyed a considerable portion of it, the loss was covered by insurance and the money received therefrom has been invested and will be applied to the permanent increase and improvement of the Library. Since the beginning of the present academical year, the books have been carefully classified (in seventeen departments) and it is hoped that another year will chronicle the preparation of a catalogue worthy of this valuable collection. All students of the Collegiate and Preparatory Departments enjoy the privilege of using the books, subject to the Regulations. This library is open for study and consultation from 8 to 11:45 A. M. No book is permitted to be taken from the Library. Contributions in books, manuscripts, pamphlets, etc., are respectfully solicited.

II. THE LIBRARIES OF THE LITERARY SOCIETIES consist of selections made from time to time by the Society authorities, and purchased with funds derived partly from donations and partly from sessional revenues, it being the aim to devote annually a portion of the revenue to the continual improvement of the Library.

III. THE THEOLOGICAL AND PHILOSOPHICAL UNION already possesses the nucleus of a valuable collection of books.

IV. DEPARTMENTAL LIBRARIES. In addition to the Books of Reference in the Whitcomb Library, several of the departments of instruction in the institution have Reference Libraries at their disposal.

APPARATUS AND CABINET.

THE PHILOSOPHICAL AND CHEMICAL APPARATUS, though not of the most expensive kind, is sufficient for the illustration of the more important principles of Physical Science. It includes the usual requisites of the Chemical and Physical Laboratories ; two Telescopes, by Henry Fitz ; a Microscope, by Zentmayer, with Spectroscopic and Polarizing attachments ; cylinder and plate Electrical Machines, inductive coils, air pump, meteorological instruments, and all of the common forms of physical apparatus. Breakage of apparatus and cost of chemicals are at the cost of the students.

The valuable cabinets of the University were almost totally destroyed by the fire of the past spring. The Archæological collection was partly saved, though in a damaged condition. The collection of the Scientific Club and a small working cabinet of minerals, together with a valuable series of subcarboniferous fossils, stored in the laboratory of the new building, escaped destruction. Efforts will be made to restore the cabinets as rapidly as possible, and already several valuable donations have been received, and others proffered. It is the intention to create

a fund for the purpose of purchasing such parts of the cabinets and apparatus as are indispensable. Contributions to this fund are urgently solicited.

CONTRIBUTIONS TO THE MUSEUM.

Mr. C. L. Brooke, minerals and fossils; Mr. M. B. Davis, fossils; Mr. C. W. DePauw, fossils; Mr. G. D. Downey, minerals and fossils; Mr. G. M. Glassco, minerals and fossils; Miss Belle Hays, minerals and fossils; Miss Joddie Hays, minerals and fossils; Mr. W. A. Hester, minerals and fossils; Miss L. G. Kelley, minerals and fossils; Mr. E. L. Mick, minerals and fossils; Mr. C. A. Martin, specimens and fossils; Mr. F. D. Newhouse, minerals and fossils; Miss M. E. Owen, minerals and fossils; Miss I. R. Paxton, minerals and fossils; Mr. L. B. Salmans, Kansas fossils; Mr. J. Scott, minerals and fossils; Mr. J. J. Seward, minerals and fossils; Mr. A. Throop, specimens; Mr. W. L. Hood, minerals; Mr. Fred. Giles, arrow heads; Mr. L. Stevens, minerals; Miss Ida Allen, minerals and fossils; Dr. J. E. Earp, minerals; F. A. Arnold, editor of the Star, minerals from Colorado; —————, 200 specimens.

TO THE LABORATORIES.

Hon. T. B. Redding, Newcastle.

A very valuable and beautiful collection of (109 slides) microscopic of preparations for the Biological Laboratory, \$100 00

Table and case for Laboratory, 10 00

Gov. Will Cumback.

Beaker & Sons' Analytical Balance, sensitive to 1-20 M. gm.; with its full load, 100 grms. Agate bearings and knife edges. Turns with an increase of 1-2,000,000 of its full load 95 00

Accurate weights for same, 18 00

Mr. C. W. DePauw, table and case, 8 00

Mr. D. L. Langdon, two color charts, 5 00

Three curtains for Dark Room, 2 00

Rev. J. B. Johnson, tools, 5 00

APPARATUS MADE IN THE LABORATORIES AND SHOPS.

Torsion Apparatus, \$30 00

Tantalus Cup, 3 00

Flow of Liquids, 10 00

Inclined Plane with Car, 6 00

Unequal Expansion of Solids, 10 00

Laws of Projectiles and Falling Bodies (Dr. Baker), 10 00

Collision Balls, 5 00

Resultant Table (Dr. Baker), 10 00

Parallelogram of Forces, 5 00

Compound Levers, 5 00

Pendulum Apparatus, 4 00

Centre of Gravity, 1 00

Bottle Imp, 1 00

Projection by Solar Microscope, 15 00

Coefficient of Friction, 8 00

Three Pendulum Rods, 3 00

Apparatus for Suspension, 1 00

Several Microscope Stands and accessories,	—
Two Barker's Mills,	20 00
Manometer Tube,	6 00
Reading Through a Brick,	6 00
Two Deflection of Beams,	30 00
Whirling Machine for Composition of Colors, and Maxwell's Disks,	35 00
Expansion of Solids,	7 00
Sonometer (Dr. Baker),	20 00
Laws of Tension,	10 00
Daylight Photometer,	25 00
Arthur Throop.	
Two Galvanometers,	75 00
Atwood's Machine with Electro Magnets,	100 00
Attracting Helix,	5 00
Toy Steam Engine with Attachment for Running Color Wheels,	10 00
Rheostat,	—
Crank Motion,	15 00
Microphone,	6 00
Pole Changer,	5 00
Estimation of Tenths,	60 00
Messrs. Throop and D. H. Jackson, Balance,	25 00
Rotary Clock,	—
J. Scott and A. Throop, Scroll Saw,	5 00
D. H. Jackson, Logical Machine,	5 00
Polygraph Box,	1 00
C. E. Asbury, Whirling Table and Attachments,	30 00
Mercury Lung Tester for Pressure,	10 00
Mono's Apparatus,	25 00
Mechanical Paradox,	3 00
Toy Steam Boiler for Color Disks,	3 00
Messrs. Asbury and Jackson, Scroll Saw,	20 00
Messrs. Asbury and A. C. Longden, Battery and Case,	25 00
A. C. Longden, Borda's Pendulum,	60 00
Electric Bell and Connections,	10 00
H. B. Longden, Law of Lenses,	10 00
A. Sato, Tripod for Camera,	5 00
Camera Obscura,	10 00
Ground Glass,	1 00
V. A. Whitaker, Bridge Trusses,	8 00
Edward Peck, Burette Stand,	2 00
Model for Graduating Burettes,	6 00
Albert Burnside's, Milk Tester,	4 00
Over one hundred blow pipes, lamps, and a large number of wash-bottles, pincers and many chemicals were made by students working in the laboratories.	
There have been added to the laboratories and museum: Three sets of shelves for chemicals, three cases in the museum, four long tables in the physical laboratory, five large tables and others, accommodating from fifty to one hundred students in chemical work,	
One Chemical Thermometer,	\$3 50
Differential Thermometer,	3 00

Large Receiver,	10 00
One Set of Steel Stamps for members,	2 25

SCIENTIFIC CLUB.

An organization has been in existence since 1875 under the name of the Indiana Scientific Association, whose objects are the study of Natural History of the State, and mutual improvement in all branches of the Natural Sciences. The Society has already collected many hundred specimens of plants, fossils, and other objects of interest, and has accumulated over a hundred volumes of valuable books on scientific subjects. It subscribes also for the leading scientific journals of the world. Donations of books, money, minerals, fossils, archæological specimens, etc., are solicited, and exchanges returned when desired.

THE THEOLOGICAL AND PHILOSOPHICAL UNION.

This Union is composed of some of the professors, preachers in Greencastle, and students. Its object is mutual instruction and improvement in the subjects suggested by the title. Meetings are held semi-monthly, at which papers on special subjects are read and discussed, and a general conversation had on some topic of immediate interest to the Church and World. Contributions to its Library are acknowledged under the head of "General Statement."

SOCIETIES.

There are three Literary Societies in connection with the University :

The *Platonean*, organized in 1838 ; library, one thousand volumes.

The *Philological*, organized in 1839 ; library, one thousand volumes.

The *Philomathean*, organized in 1870, consisting exclusively of ladies ; library about five hundred volumes.

These societies meet statedly for literary and oratorical improvement. The Societies are under the general supervision of the Faculty, but in all the details of practical work their exercises are under their own control.

BOARDING.

A few students rent rooms, furnish them and board themselves. In such cases the expense is about \$1.50 per week. Ladies live in this way as well as gentlemen. Other students rent furnished rooms and board in clubs consisting of fifteen to twenty-five. There is always abundant opportunity to board in this way. The expense is now about \$2.10 per week. The price of rooms furnished and taken care of is from fifty to seventy-five cents per week. Private boarding in families can be had without difficulty at \$3.25 to \$3.00 per week. The accommodations for boarding have greatly increased during the past year, and it is believed that as good boarding can be had at low rates as anywhere in the State. The friends and parents of students are invited to correspond with the Faculty in regard to accommodations, who will take pleasure in furnishing information or rendering them any assistance that may be desired.

OTHER EXPENSES.

The only charges made by the University are \$5 per term for contingent expenses and \$5 for diploma fee, paid in advance. This contingent expense enables the University to meet the expenses of fuel, janitor, repairs, printing catalogues, advertising, chemicals for the use of the Professor and other incidentals such as are absolutely indispensable. The endowment fund is pledged to be used for the

purpose of furnishing instruction. The entire expense of instruction is furnished in this way.

The entire expense of books necessary in the two Preparatory Years is about \$20.00. The expense during the Freshman Year is \$8.65; Sophomore Year, \$11.05; Junior Year, \$15.50; Senior Year, \$16.85. The dictionaries needed by a student during his college course can be had for \$25.00, making the total outlay for six years an average of about \$16.00 per year. In case the students buy in part second-hand books, a custom quite common, the expense can be reduced from one-third to one-half.

The expense for clothing need not exceed \$75.00. Washing will cost on an average \$10.00 per year.

Incidental expenses vary according to the habits of the student, the amount of money at their command, and their accountability for its use. The entire expense of living at college, not including clothing, need not in any case exceed \$175.00 per year, either for ladies or gentlemen. The Faculty earnestly recommend the friends and parents of students to insist upon a regular and systematic accountability for the funds placed at their disposal, believing that economical habits should be acquired during college life by those of large, as well as by those of limited means.

TRAVELING EXPENSES.

Through the generosity of the railroads running east and west through Greencastle, students purchasing tickets at this place, on presenting a permit from the President of the University, and paying full fare to the place of destination, will be returned to Greencastle free.

Matriculation and Classification of Students.

1. Applicants for admission to college classes shall first present to the Secretary of the Faculty their evidences of eligibility to enter the College Department.
2. These evidences shall consist of certificates from the Preparatory schools of the University, and from such other schools or colleges as may from time to time be recognized by the Faculty.
3. Students not coming from such schools shall be examined under the direction of the Principal of the Preparatory school of the University at Greencastle.
4. Candidates for classes beyond the Freshman shall not be admitted to recitation until examined by the professors of the respective departments after presentation to them of a certificate of eligibility to enter the Freshman class, signed by the Secretary of the Faculty.
5. Students shall not be admitted to instruction in any branch of study unless they shall have completed the work preparatory to that which they wish to pursue.
6. Students not deficient more than one-half of one term's work may be classed, *pro tempore*, regular, provided such deficiency be not of more than one year's standing.
7. The Secretary of the Faculty shall keep a record of the status of all students in the University.

8. The instructors in the college shall report to the Secretary of the Faculty the result of each term's work of the students in their classes within two days after the close of each term. The Record shall indicate by the letter "P," the studies passed, and by the letters "N. P.," a failure to pass.

9. At the end of each term the Secretary shall send to each student a statement of the work accomplished during the term. This statement shall be a copy of the Record, and shall be called the student's Pass-card.

10. Upon presentation of the Pass-card and the payment of the contingent fee, the treasurer shall issue each term matriculation cards, upon which the several professors shall endorse the studies to be pursued by the student. The matriculation cards are then to be presented to the President, who will endorse the class and chapel seat of each student. The President will also enter the name of each new student, and the name and residence of the parent or guardian in the University Matriculation Book.

Departmental Honors.

1. Special honors may be given in the respective departments of the college for special work.

2. These honors shall be known as *First-class Honors* and *Second-class Honors*.

3. *Second-class Honors* shall be open to Sophomores and Juniors.

4. Candidates for *Second-class Honors* must have pursued and passed with distinction all the regular and elective studies of the respective departments in which they desire honors, prior to the time of the special Honor examination; they must also accomplish such special work as may be required, and which shall from time to time be announced.

5. Such Seniors as have obtained *Second-class Honors* shall be eligible to *First-class Honors*. The requisitions shall be: 1. The required and elective work of all the years preceding the Senior, in the department in which the candidate aspires to Honors; (2), such special work as may be required.

6. Honors shall be awarded solely upon examination tests made in writing at or near the close of each academic year.

7. In order to obtain Honors in any department the candidate must make a grade of 90 on a scale of 100. The names of successful candidates will be published in lists arranged alphabetically in the annual catalogue of the University.

8. No student shall be eligible to more than one Honor in any one year except by permission of the Faculty.

College Discipline.

1. Demerit marks do not affect examination grades.

2. Ten demerit marks signify a private reproof by the President; twenty de-

merit marks, a second reproof; forty demerit marks during one college year shall suspend a student.

3. Unexcused absences from recitation or public exercises count each one demerit.

4. Demerit marks reported by the several professors, if approved by the Faculty, shall be entered upon the Record by the Secretary.

The attendance of the students upon the general college exercises shall be called for by the several professors and reported to the Faculty at the weekly Faculty meeting.

Examinations.

It shall be the duty of each instructor to hold an examination on the work done by each class, at least twice, and not more than three times each term of the academic year. A portion, at least, of each examination shall be from written or printed questions, to which the answers shall be in writing. *No student shall be admitted to examination unless the recitation work shall have been satisfactory to his instructor.* In order to pass successfully, the candidate must, in each study, make a grade of at least 70 on a scale of 100. Any student failing to pass two successive examinations of this character shall be "conditioned" on the work done by the class in that study since his last preceding successful examination. Whenever the study of an author or subject be finished, the last examination in such author or subject shall be upon the whole work done by the class.

What to Do on Arriving at Greencastle.

Come, if possible, on Monday, September 13th. Sooner is not necessary. Later will not give the proper time for making arrangements for work. On arriving at Greencastle, if at night, go to a hotel; if in the day time, leave your trunk at the depot and go direct to the College. Inquire for Prof. Earp, who will furnish you all the information you need respecting rooms and board. Prof. DeMotte is appointed by the Faculty to give information respecting the examinations of preparatory students, and to determine the eligibility of all candidates for the college department. Candidates for the higher classes will be examined and promoted by the respective Professors, after they have obtained a certificate of admission to the college department. After examinations are passed, you will obtain a card of admission from Prof. Earp, on payment of the contingent fee, five dollars. President Martin will endorse on the card the name of your class, and assign your seat in the chapel. On Wednesday, at 7:40, A. M., all students assemble in Meharry Hall, occupy their respective seats, hear announcements of recitations for the term, and are ready for work.

UNIVERSITY LECTURES.

PRESIDENT MARTIN.

PREPARATORY DEPARTMENT.

ALEXANDER MARTIN, D. D., LL. D.,
President.

JOHN B. DEMOTTE, A. M.,
Principal, and Instructor in Mathematics.

THOMAS JEFFERSON BASSETT, A. M.,
Instructor in Ancient Languages.

PHILIP S. BAKER, A. M., M. D.,
Instructor in Natural Science and English.

JOHN E. EARP, PH. D.,
Instructor in Reading.

LIEUT. W. R. HAMILTON,
Professor of Military Science and Tactics.

ENLARGEMENT.

The building that has taken the place of the one destroyed by fire, is 99 feet long and 89 feet wide, with three stories, respectively 15, 17, and 20 feet in height. For the purposes of faithful study and successful teaching, its arrangement is complete. It is known as West Hall.

The first floor is used to accommodate the Cadet Corps.

The second floor contains an assembly room with seating capacity for about four hundred, to be used for study during all vacant hours; a working cabinet for science students, and three recitation rooms, with reference-library rooms adjoining.

On the third floor there will be an ample hall for the literary society of the Department.

Additional recitation rooms will be provided as needed.

The rooms of the entire building are commodious, well ventilated, and will be warmed by steam.

NO EXAMINATIONS

Will be required of candidates for the Junior Class at the *beginning of the year*, provided they have completed the grades of the ordinary Public Schools, and are

not too young to accomplish the stipulated work of the Department. After the first term is begun, candidates for admission to the Junior Class, and, at any time, candidates for admission to higher classes will be *required to pass rigid examinations upon all the studies not marked "Optional" in the course, so far as pursued by the class for which they are candidates.*

A thorough knowledge of the texts thus indicated, or their full equivalents, will be insisted upon.

Persons desiring admission are required to present themselves for examination at the time indicated in the general calendar, and to be ready to enter upon their College duties promptly the day following. The Department claims the student's whole time during the recitation and study hours of every day, and from the beginning to the end of every Term, throughout his Preparatory Course, as one essential condition to his thorough training and regular promotion. Absence during a single hour devoted by the instructor to some fundamental explanation may be the occasion of a loss that is never repaired.

LATIN PRONUNCIATION.

The following scheme of vowel and consonant sounds, including only those which are different from the English, has been prepared, to serve as a guide in Latin pronunciation to students who may prepare for the Freshman Class, elsewhere than in the Preparatory Schools maintained by the University authorities :

VOWELS.—a, as in father ; e, as in *fête* (French) ; i, as in machine ; o, as in tone ; v, (vowel), as o in move. When *short*, the vowels have the same sound, but are uttered with a livelier and more rapid movement.

DIPHTHONGS.—au, as ow in power ; eu, as eh—oo pronounced rapidly ; ae and ai, as ay (adverb) ; oe, as oi in stoic, pronounced rapidly ; ei, as eh—ee pronounced rapidly ; ui, as oui (French).

CONSONANTS.—c and g always hard, as in cat, get ; qu, like c hard, or k ; s, as in hiss, never like z ; t, always as a pure dental ; x, always as ks ; v, (consonant) like w.

The "Natural method" is employed in teaching Latin, and with the most satisfactory results. Students began with the first chapter of Cæsar's Commentaries. During the first Term no attention is given to the Grammar, but the students are required to commit to memory and repeat the text. Then conversational exercises are carried on entirely in that language upon the subject-matter of the lesson. Beginning with the second Term, the student's attention is called to forms of words, and during the third, Grammar is studied in connection with the text. Candidates for advanced classes will be required to pass examination only upon an equivalent amount of work, according to the method by which they have studied

WRITTEN EXAMINATIONS

Will be held in all classes at the end of each month, upon the month's work ; the manuscript of which, after being carefully graded in a manner that indicates what the errors are and how they can be avoided, is returned to the student or parent.

Oral reviews will be made upon each important division of a subject before passing to the next.

The special aim of the Department is to furnish the highest possible facilities for the most accurate and systematic foundation work, and the demands made upon its students will be correspondingly exacting.

GENERAL OBSERVATIONS.

A contingent fee of \$5 per term is the only expense required by the University. For expense of living, books, traveling, etc., see page 45 of the current catalogue, which will be promptly forwarded to any address upon application to the President or Principal.

A library of Cyclopædias, Dictionaries, Gazateers and Charts has been placed in the Assembly Room during the year for the use of the Department, by gentlemen whose liberality is noticed on page 4.

Professor Baker will devote thirty minutes of each day to thorough drill in vocal music and voice culture.

The literary societies of the University proper, the libraries, literary and scientific lectures, and other stimuli to mental effort and excellence, are open to the students of the Preparatory Department.

Scarcely a city in the West can offer more inducements to moral growth than does Greencastle, with her new churches, her excellent ministry, and her few vicious attractions.

EXCUSES.

The only valid excuse for absence, or lack of preparation for the class-room, is illness or other unavoidable prevention; and the necessity of a uniform and impartial system of discipline in the Department precludes the acceptance of any other as satisfactory.

By strictly adhering to this principle, students will save themselves and the Department much needless trouble, and, at the same time, contribute essentially to the cultivation of conscientiousness and the formation of regular and efficient business habits.

Each unexcused absence deducts *one* from the Term grade in Department.

THE NEW COURSE OF STUDY.

"The boy who is destined for a classical education is too often prematurely set to the study of Latin, and this is too often made his principal occupation for several years, in such a sense as to *exclude the energetic pursuit of many useful studies*, or at least to be the excuse for the comparatively unproductive employment of some of the most important years of schooling. * * * If the boy is a bright and apt scholar, his time is wasted in useless iterations and vain repetitions. If he is unapt and stolid, his classical lessons become a task and a pretext for neglecting a great variety of studies, which, if they would fail to awaken enthusiasm, might, at least, furnish the relief of variety. Greek is commenced at too early an age, with similar consequences, * * * The work of four years is often spread over six or eight, with the negative consequences of excluding much valuable knowledge and the stimulus of diversified and exciting occupations, and the positive harm of disgusting the pupil with wearisome monotony, and confirming him in habits of mechanical and listless drudgery."

NOAH PORTER.

The above, from page 292 of President Porter's "American Colleges and the American Public," is the well expressed conviction of some of the most progressive and prominent educators of the present age.

The Faculty and Trustees of Asbury University have adopted a curriculum,

which is believed to be in accordance with the demands of the mind in its most natural and perfect development.

The present Preparatory course, with the exception of the experience required, fits the student for a State Teacher's License.

DONATIONS.

In addition to the donations mentioned on page 4, the following are worthy of mention :

An elegant Brussels carpet for rostrums in Assembly Room, by the young ladies of the department,	\$ 35 00
Slating for all the chalk boards in the building, by Rev. B. Wilson Smith,	100 00

PRIZES.

Last year, as upon a former occasion, J. K. Langdon very generously placed at the disposal of the Senior Preparatory Class some handsome prizes, to be competed for in Orations, Essays and Declamations, during Commencement Week. The prizes were : One set "Milman's Gibbon's Rome," in box ; one set "Hume's England," in box ; one 13-volume set "Shakespeare's Works," in box. The first named prize was awarded to Granville Walter Barr ; second, to Minnie Knight ; third, to Samuel L. Brengle.

Dr. J. E. Earp, this year, will place \$10.00 in gold in the hands of a competent committee to be awarded to the best reader in the Senior Preparatory Class. This is encouragement in a direction where it is needed most.

COURSE OF STUDY.

JUNIOR YEAR.

FALL TERM, 1880.

Arithmetic—*Milne*.
 Grammar—*Ridpath*.
 Music—*Blackman* and *Whitemore*, No. 4.
 Penmanship—*Payson*, *Dunton* and *Scribner*.
 Physical and Descriptive Geography—*Harper's School*, to Ch. LXXV.
 Thought Analysis.

WINTER TERM, 1881.

Arithmetic—*Milne*.
 Grammar—*Ridpath*.
 Introductory Algebra—*Olney's* Introduction, to Section XVIII.
 Music.
 Orthœpy and use of Webster's Dictionary.
 Physical and Descriptive Geography ; Finished.

SPRING TERM, 1881.

Algebra—*Olney's* Introduction, Finished.
 Arithmetic—*Milne*, Completed.
 Elements of Astronomy, (Class work).
 English Grammar, Completed, and Composition.
 Music.
 Readings in Prose.

SENIOR YEAR.

FALL TERM, 1880.

Algebra—*Olney's* Complete School.
 Composition.
 Latin—Cæsar, *Chase* and *Stewart*.
 Music—*Blackman* and *Whitemore*, No. 4.
 Physics—*Norton*.
 Readings in Poetry.

WINTER TERM, 1881.

Algebra—*Olney's* Complete, Finished.
 Composition.
 Latin—Cæsar, *Chase* and *Stewart*,
 Grammar—*Allen* and *Greenoch*.
 Music.
 Physiology—*Dalton*.
 Reading—Merchant of Venice—*Hudson's* Text.
 Zoology—*Jordan's* Manual of Vertebrates.

SPRING TERM, 1881.

Composition.
 Latin—As above; and Prose Composition, *Jones*.
 Music.
 Plane Geometry, three books—*Loomiss*
 Reading, Merchant of Venice—*Hudson's* Text.
 United States History—*Ridpath*.
 Zoology—As above.

STUDENTS.

Classical Seniors.

BLISH, HIRAM ELSWORTH,	Seymour.

Stockwell Preparatory Department.

STOCKWELL, INDIANA.

FACULTY.

PRINCIPAL—JOHN G. LAIRD, A. M.

ASSISTANT AND MUSIC TEACHER—MAY L. COOPER., B. Sc.

By action of the authorities the Stockwell Institute has become a Preparatory Department of the University. The following are the names, which under the arrangement are entitled to appear in our catalogue:

STUDENTS PROMOTED TO FRESHMAN CLASS.

HUFFMAN, JOHN,	Stockwell.
HAMILL, FRANK,	Stockwell.
LABAREE, WILL,	Clark's Hill.
McKEE, THOMAS,	Clark's Hill.
O'NEIL, MATTIE,	Stockwell.
YELM, CHARLES G.,	Stockwell.

PURSUING PREPARATORY STUDIES.

BRYANT, WILLIAM,	Clark's Hill.
BEAL, HARRY,	Stockwell.
BARTHOLOMEW, NEWTON,	Stockwell.
BLICKENSTAFF, ORON,	Stockwell.
BLICKENSTAFF, MINA,	Stockwell.
BRADBURY, WILLIAM,	Stockwell.
BOYD, GEORGE,	Stockwell.
BROWN, WILLIAM,	Stockwell.
BROWN, CLARA,	Stockwell.
BEAR, ARMINTA,	Stockwell.
BURK, OLLIE,	Stockwell.
BRYANT, FANNIE,	Clark's Hill.
BAKER, BESSIE,	Stockwell.
BAKER, ANNA,	Stockwell.
COLE, IDA,	Stockwell.
COLE, WILLIE,	Stockwell.
COLE, SILAS,	Stockwell.
COOPER, JAMES,	Stockwell.
COYNER, WILLIAM,	Stockwell.
GARDNER, ROSA,	Stockwell.

HOLLENBECK, FLORA,	Stockwell.
HOWARD, ATTA,	Stockwell.
HENNESSEY, JOSEPH,	Stockwell.
HENNESSEY, MIKE,	Stockwell.
JONES, CHAS.	Lafayette.
JOHNSON, NEWTON,	Stockwell.
LAMBUT, ELLA,	Stockwell.
LEFEVER, KATIE,	Stockwell.
LEE, MINNIE,	Stockwell.
LEE, STEWART,	Stockwell.
LOWE, EDWARD,	Whitestown.
LEFEVER, JACOB,	Whitestown.
LINDSAY, CLARK,	Whitestown.
LINDSAY, HOWARD,	Whitestown.
MITMAN, EDMOND,	Dayton.
McKEE, THOMAS,	Clark's Hill.
McKEE, MARK,	Clark's Hill.
NAFTZGER, ELLA,	Stockwell.
NORTHROP, SARAH,	Stockwell.
NANTZ, JERRY,	Terre Haute.
PARKER, GEORGE,	Clark's Hill.
REAM, JENNIE,	Winamac.
RICKETTS, JENNIE,	Stockwell.
RASH, OLLIE,	Stockwell.
REESER, ORPHA,	Stockwell.
REESER, MARTHA,	Stockwell.
REAM, BLAKE,	Stockwell.
SMITH, HALLIE,	Olin, Ky.
SCOTT, KATIE,	Stockwell.
SCROGGY, EDWARD,	Dayton.
THOMPSON, MATTIE,	Stockwell.
WRIGHT, HATTIE,	Clark's Hill.
WRIGHT, PERRY,	Clark's Hill.
WARBITON, MOLLIE,	Crawfordsville.
WHITTLEBURY, RANDOLPH,	Stockwell.
WEAVER, EDWARD,	Stockwell.
WRIGHT, JOHN K.,	Clark's Hill.

CALENDAR FOR 1880-'81.

1880.

- Sept. 13th and 14th, Examination of Candidates for Class Standing.*
 Sept. 15th, . . . First Term begins.
 Dec. 20th and 21st, Term Examinations.
 Dec. 21st, . . . Term Literary Exercises of the Junior Class.
 Dec. 22nd, . . . First Term ends.

1881.

- Jan. 5th, . . . Second Term begins.
 Feb. 22d, . . . Exercises in honor of Washington's Birthday, and Literary
 Contest of the Philological and Platonean Societies.
 March 28th and 29th, Term Examinations.
 March 29th, . . . Term Literary Exercises of the Sophomore Class.
 March 30th, . . . Second Term ends.

1881.

- April 6th, . . . Third Term begins.
 May 26th to 27th, Final Examination of the Senior Class.
 June 16th to 18th, General Examination of Classes.
 June 19th, . . . Baccalaureate Sermon and Annual Lecture.
 June 21st, . . . Meeting of the Joint Board of Trustees and Visitors.
 June 22d, . . . Literary Exercises and Reunion of the Society of Alumni.
 June 23d, . . . Commencement Day.

*No Examinations for Class Standing will be held except on these days.

SUMMARY OF STUDENTS.

Department of Literature, Science, and the Arts :

SENIOR CLASS,	24	
JUNIOR CLASS,	37	
SOPHOMORE CLASS,	50	
FRESHMAN CLASS,	44
